

GRAF ZEPPELIN COMPLETES BIG HOP TO TOKIO TO OPEN NEW HOSPITAL

WILL STARS "SHE" DERBY AND HURRIES BACK TO DO DISHES

(Special to The News)
HOLLYWOOD, Cal., Aug. 19.—Just come from the field at Santa Monica where Stone and I did what we could to get the flying females out of town. The "She" derby got off the ground and away in the air, but what is humorously referred to as the stronger sex went back to the kitchen sink and the radio. The husbands left by motor to go ahead to prepare proper food for their wives in each town. I tried to find a mother in the outfit. There was so many Mrs. I thought I might find one wayward soul. But all had had no time for maternal worries, they had given their lives to the carburetors.
Yours, WILL.

PA NEW OBSERVES

Members of Troop F, 103rd Cavalry, were noted making a trip about the city yesterday on their new mounts. There was quite a delegation of the cavalrymen, enjoying the "mounted hike."

Detour from New Castle to Walpole has been closed again, and should remain in good condition until the new concrete boulevard on the Wilmington road from the city line to Walpole is ready.

Lawrence county farmers and truck gardeners who have been praying for a good rain for a week were hopeful that such an event was on the way when the sky clouded up yesterday afternoon, but it failed to materialize. Rain is badly needed by the crops.

Elderberries are fast ripening, a trip through the rural districts yesterday revealed and lots of elderberries will be made into jelly or canned during the next two weeks.

Driver of a car carrying Pennsylvania license No. 729327 must have been in a terrible hurry last night to get up Jefferson street hill, the chances he was taking to pass cars. "He profits most who serves best." At the expense of the club whose motto that is, some 50 or more underprivileged children of the city will enjoy a week's outing at the Lawrence County Boy Scout camp on the Slippery Rock. New Castle Rotarians have made this possible for the children for several years.

Almost as different as night is from day the city has opened newly paved West Washington street to traffic. It's an appreciated improvement and shows that city fathers have a mind toward bettering New Castle.

A local party of farmers and others interested in the cultivation of potatoes spent today at State College. A potato exposition opened there today, so the Lawrence county potato raisers eager to learn new methods.

Giant Dirigible Is Safely Moored At Tokio, Japan

Graf Zeppelin Completes Second Leg Of Round World Trip
FAST TIME IS MADE
TRIP TAKES 102 HOURS

Immense Crowd Greeted Crew And Passengers On Arrival Today

By JAMES E. YOUNG
International News Service Staff Correspondent
KASUMIGAURA AIRFIELD, TOKIO, Aug. 19.—Completing the second leg of her round the world journey in a blaze of glory, the giant dirigible Graf Zeppelin landed here at 6:40 p. m. today (5:40 a. m. New York daylight saving time), following her epochal flight across half of Europe, Russia and Siberia from Friedrichshafen, Germany.

In Air 102 Hours
The giant air liner, which is attempting the pioneer commercial circumnavigation of the globe, had been in the air 102 hours and five minutes since she took off from Friedrichshafen last Thursday on the most hazardous leg of her journey. A ground crew of 300 soldiers, sailors and marines, recruited from the various army and navy bases around Tokio, had been waiting at the field for hours for the Graf's arrival. At 3:55 this afternoon (2:55 a. m. New York time), the great ship first arrived over the aerodrome. After circling twice while a crowd of more than 100,000 persons of all nationalities roared a frenzied greeting, the Graf headed for Tokio and Yokohama, to pay courtesy visits before coming to earth at Kasumigaura. Senate Reconvenes After Vacation Of Ten Weeks Duration

Senate Comes Back To Work
With New Tariff Program Rates Completed

Debate On New Rates Scheduled Is Postponed Until After Labor Day

By WILLIAM K. HUTCHISON
International News Service Staff Correspondent
WASHINGTON, Aug. 19.—Reassembling after a ten weeks vacation from its special Farm Relief session, the Senate today found the new \$700,000,000 tariff bill, completed as to rates, but with debate on it postponed until after Labor day.

Only vice-president Curtis, a handful of party leaders and the regular attaches were present for the brief session. Under a gentleman's agreement, the Senate will recess from time to time until September 4 without transacting any but routine business. The recess will run from Monday to Thursday and Thursday to Monday. The House meanwhile continued on vacation. It will return September 15 only to face the prospect of another long vacation until after the Senate has passed the tariff measure.

Consideration Delayed
The Senate Finance committee now will begin consideration of administrative features in the tariff act. The highly controversial issue over giving the president power to raise and lower rates and the equally important question of valuations must be determined before the bill is ready for the Senate.
With Democrats already opening fire on various sections of the bill, particularly the sugar rates, administration leaders faced a tremendous task to get the measure enacted into law before the special session ends. Under existing rules, however, if (Continued On Page Two)

TWO SWISS FLIERS TRY ATLANTIC HOP

(International News Service)
LISBON, Aug. 19.—A new attempt to span the Atlantic by air from east to west started here today when two Swiss airmen took off from Alverca aerodrome for New York.
The fliers are Oscar Kaeser, young Swiss ace and Kurt Luscher, a youthful compatriot who is acting as navigator as well as sponsoring the flight financially.

Endurance Plane Is Refueled At Cleveland

(International News Service)
CLEVELAND, Aug. 19.—The Spokane "Sun God" in its non-stop round-trip flight between the Pacific and Atlantic coasts swooped over the Cleveland airport on the second leg of her journey at 6:37 a. m. today, for her second supply of food and gasoline here.

The endurance's arrival brought relief to airport crews who had scanned the skies throughout the night for the long overdue craft.
An all night vigil had been kept for the endurance with the tiny refueling craft poised on the airport runway ready to hop off at a moment's notice to give food and gas supplies.
Definite word from the "Sun God" had been lacking at the airport here since the endurance left New York yesterday after completing the tollsome first half of her round-trip flight.

(International News Service)
MUNICIPAL AIRPORT, CLEVELAND, Aug. 19.—Zooming over the airport, its pilots waving a last farewell, the transcontinental round-trip endurance plane, "Sun God," swept off to the west at 8:35 a. m. today to resume the second lap of its two-way journey.
"Wire St. Paul Municipal airport, we have left. Thanks and regards," was the last message dropped by the Sun God pilots, Nick Mamer and Art Walker, before they flew over the horizon and out of sight.

Ten Meet Death In Auto Crashes Over Week-End

Ten Are Killed, One-Hundred Injured Is Toll In State Period

GREATEST NUMBER IN PHILADELPHIA

(International News Service)
Ten persons were killed and at least 100 others suffered injuries in week end automobile accidents in Pennsylvania and vicinity, a survey conducted by International News Service revealed today.
The greatest number of fatalities and injuries resulted in the region of Philadelphia as motorists crowded the roads on week end trips. Three persons met their death in Philadelphia while five others were killed at nearby Jersey points.
Doylestown led the Pennsylvania cities in the number of injured, 27 persons being hurt when a bus upset there. Fifty others were injured in the vicinity of Philadelphia and Camden, N. J., in a series of crashes.
Pittsburgh had a death toll of two with ten persons injured while Harrisburg had a low toll of only five injured.

PLAN FORMAL OPENING OF NEW JAMESON MEMORIAL HOSPITAL ON THURSDAY

Plans Are Announced By Directors—Public Inspection Friday—Saturday

Expect Institution To Be Functioning In Short Time—Building Ready

Two years of building operation, and a decade of hopes will come to fruition Thursday evening, August 22, when the new Jameson Memorial hospital, the gift of the late David Jameson will be formally turned over to the people of New Castle and Lawrence County.

The announcement was made today by Mrs. David Jameson, widow of the late philanthropist, who for the past two years has spent the majority of her waking hours in seeing that the hospital was erected in the most modern manner possible.

Parachute Leap Causes Death

Dennis Donegan, Former Local Man, Killed In Cleveland, Ohio

PARACHUTE FAILS TO OPEN FOR LEAP

Dennis A. Donegan, age 31, of Cleveland, was instantly killed, during an Old Home celebration in Cleveland, O., Sunday afternoon, when he attempted to make a parachute landing from a plane and the parachute failed to open.
Donegan fell 1,800 feet to his death at the Perry air field, Perry, O. 3,000 spectators looked on.
He was performing at a celebration at the airport. He crawled to the wing of the plane, poised and then jumped. Witnesses saw him fumble at the cord releasing the parachute, but it failed to open and he was dead when reached in the middle of the field.
He was born in this city, 31 years ago, a son of Morris and Elsie Donegan.
He is survived by his wife, and children, his parents, Mr. and Mrs. Morris Donegan, and three sisters, Mrs. Shearer, Eleanor and Teresa Donegan.
He is nephew of Dennis F. Donegan of Leasure avenue, this city.
Mr. and Mrs. Dennis Donegan, Mr. and Mrs. John Donegan, Mr. and Mrs. Thomas Donegan, James Donegan, and Mrs. M. Meskill of this city will attend the funeral services which will take place Wednesday morning from the Blessed Sacrament Church of Cleveland, O. Interment will be made in Calvary cemetery.

Chinese Troops Being Massed

Report Large Force Being Concentrated Along Border Line

CRISIS REACHES ACUTE STAGE

By HARRY R. FLODY
International News Service Staff Correspondent
LONDON, Aug. 19.—The Sino-Russian crisis entered an even more serious stage today, as reports from the Far East arrived here to tell of heavy mobilization of Chinese troops and of sporadic clashes between Soviet troops and Chinese forces near the Manchurian frontier.
According to an apparently authentic dispatch to the Daily Telegraph from its correspondent at Peiping, General Chang-Hueh-Liang, war lord of Manchuria, has ordered four additional brigades of Chinese troops to the Siberian frontier, bringing the total of Chinese troops centered there to 100,000.
Other dispatches told of additional mobilization, indicating that a force of no less than 150,000 men will shortly be massed on the Manchurian side of the frontier.
This heavy concentration of troops, the first genuine warlike moves on the part of China since the crisis first developed, is reported to be due to alleged Soviet invasion of Chinese territory at several points along the border. Several clashes have occurred. The most serious being reported from Delainor, the coal mine station of the Chinese Eastern Railway, where more than fifty casualties are rumored.

I wonder how these fishermen can tell the tales they do, they spin us yarns of wondrous fish of colors pink and blue, they tell of finnies that they caught and other ones they say, were bigger than the ones they caught, the one that got away. The ones that get away it seems are always three feet long, with gaping jaws, and waggling fins, enormous ones and strong. But somehow they never brought the ones that got away, those monstrous fishes that they missed, it's eighty-four today.

Women Fliers Resume Race

Cleveland Ohio Is Final Port For Women Fliers Who Start On Coast

SAN BERNARDINO, CALIF., Aug. 19.—Victorious after an all-night argument with race officials over a scheduled stop at Calexico, Calif., airport which they considered misplaced on the National Women's Air Derby Course, eighteen aviatrices today were speeding toward Yuma, Ariz., as their next stop, and Cleveland, Ohio, as their final destination.

They made perfect drop-offs at San Bernardino this morning. Before departing all 18 signed a waiver permitting May Halsey, who arrived at Santa Monica, starting point, too late to get off on her scheduled time, to participate.

One Plane Damaged

She will make check-landings at San Bernardino and Yuma, and catch up at tonight's control station at Phoenix, Ariz.

Only one mishap marked the first lap of the dash for prizes aggregating \$25,000. Opal L. Junz of New York shattered the landing gear of her plane in bringing it to ground. Repairs were made and she will continue in the derby.

Engine trouble forced Mary E. Von Mach of Detroit down at Montebello but she expected hasty repairs would enable her to remain in the race.

Led by Phoebe Omlie, Memphis, first to start from Santa Monica the contestants arrived here as follows:

Bobbie Trout, Florence L. Barnes, Marvel Crossen, Louise Thaden, Claire Fahy, Blanche Noyes, Nea Rascho, Ruth Nichols, Gladys O'Connell, Edith Poltz, Ruth Elder, Margaret Perry, Opal Kunz, Amelia E. Hart, Neva Paris, Mrs. Keith Miller and Vera Walker.

are there. We'll look for more pota- to raising champs next year.

While there has been a short dry spell in this community during the past week or so, it is nothing to one reported by residents returning from a stay in the vicinity of Lake Erie. The drought in that area has pre- vailed for several weeks and much of the countryside has a parched ap- pearance, with crops suffering pro- portionately.

Pa Newc has never been able to figure out why the price of gasoline always appears to be several cents higher per gallon in New Castle and Lawrence county than in other dis- tricts. Motorists report that in the vicinity of Erie at the present time motor gas is selling for 13 cents with- out the tax.

Progress is being noted on the Wilmington road between this city and Walpole at the present time. Much of the concrete is laid and some of the route is being used by motorists, although the highway is not open for traffic.

Good progress is being made on the work of grading the George Washington Junior high school site. It is hoped that the field will be ready so that the Junior high school athletes can use it this fall. It will be a big improvement at the school.

Action by the city in improving Rural avenue is commendable. This route will have to be kept in good condition for auto traffic if the opening of the new bridge across the Nehanock at North street is to aid in relieving much traffic congestion. If Rural avenue is kept in good shape, then a good route from the North Hill to the new bridge will be pro- vided, which will reduce the traffic that ordinarily comes through the downtown section to get to Croton avenue and that section of the East Side.

One of the big Pa. News family happened on a serious auto crash at the corner of Moody avenue and North Mercer street Saturday. This corner is one of the worst in town for accidents. They have about an average of one each week at this tricky intersection. The high hedges on each side of the street keep one from seeing the approaching traffic.

not happen in the future and I will see that it is run better."

Thomas Edmunds was not in charge of the place when the al- leged violations were under way it was pointed out.

"He says he is sorry for what has been done. He wants another trial," said the mayor.

"I am in favor of giving it to him," remarked Reeves.

"Sure," stated Davies.

"I'll recommend that he get an- other trial," said the mayor, adding: "I want it understood that I have not got it in" for pool rooms.

"I'll recommend we concur in the recommendation," declared Davies.

Two Others To Come In

"If you want to withdraw the ac- tion we must reconsider our action of a few days ago," reminded Burns.

"There are two others to come in here," said the mayor referring to Sebastian Pascarella and George Chip.

"There will be nothing fixed up in a back room," the mayor warned.

"If one man (Edmunds) has been big enough to come before an open session of council we should not hold him up," suggested Davies as the place has been closed.

Tyler noted the absence of Solicitor White and remarked:

"I'm agreeable to go along in this but in fairness to our city solicitor I might state that Mr. Edmunds' at- torney took advantage of a technical- ity to bring this hearing. I would not want to do anything unless the city solicitor concurs in it."

Mayor Gillespie told Mr. Tyler that council's move has had the sanction of White. The former proceeding was annulled and the Edmunds case is now closed, as far as a public hear- ing by council is concerned.

SENATE RECONVENES AFTER VACATION OF TEN WEEKS DURATION

(Continued From Page One)

the bill is still under debate by next December, when the regular session starts, its consideration can be re- sumed as though there had been no break in the session.

Administration leaders hoped to have the bill entirely completed by August 31. Their program calls for a final vote on it in the Senate about the middle of October, after which it will be sent to conference to iron out differences between the House and Senate rates. If this schedule is main- tained, they plan to get it written into law sometime in November.

Number of Snags

This program may run into a num- ber of snags and the tariff bill may still be under debate at the next reg- ular session. Administration leaders, however, base their hopes for its prompt enactment on the fact that the agricultural schedule contains many sharply increased rates.

The new schedules, as fixed by the Senate Republicans, show a slight av- erage reduction over the level of the House rates. This comparison will mean little though in view of the wide differences in the effect of various rates. The bill as a whole would pro- vide a generous increase in rates over existing law.

With the turning over of the hos- pital, and the public inspection over, the work of transferring patients from the Shenango Valley to the new Ja- meson Memorial will begin. Everything is in readiness at the Jameson Mem- orial. From the boiler room to the solarium nothing will be incomplete, for Mrs. Jameson has said many times that when she turned the hos- pital over, it would be a complete hospital, ready to render service of the most efficient kind.

Invitations for the formal opening have been mailed to those people men- tioned in the beginning of this article. To send a personal invitation to every man and woman in Lawrence county would be manifestly impossible, but Mrs. Jameson wants each one to feel that they are more than welcome. To that end, an invitation to the general public is on page 1 of today's News and no more cordial invitation could be extended were it possible to see each one in person.

Gift Announced in 1928.

It was on October 16, 1928, that this

county was pleasantly startled by the public announcement that David Jameson would provide a \$600,000 fund for the building of a new hos- pital. At that time the philanthropist was alive, but failing. He had served the Shenango Valley as president and no one knows better than he the dire need for proper hospital facilities in this city.

Knowing the need and being inter- ested in the work of alleviating pain he made his announcement, and among other things said this: "I have tried from time to time as my means permitted, to give to the community some evidence of the friendly senti- ments which I have entertained to- wards it. I have desired to give it some more permanent and lasting tes- timonial to the same end."

It was not written, that this bene- factor should live to see the day when that "permanent and lasting tes- timonial" would be a thing of reality. Some time later he passed on but the work of erecting the hospital was taken up by his widow, Mrs. David Jameson, who no less than her distin- guished husband was interested in such work.

Start Clearing in August, 1927.

Some matters preliminary to actual building had to be disposed of and on August 18, 1927, the work of clear- ing the site on the Wilmington road started.

Construction started soon after and with the construction of the new hos- pital came the erection of the nurses' home, the gift of Mrs. Jameson. This also will be formally dedicated on Thursday evening.

for a formal meeting in any part of the building is limited.

Presented By Mrs. Jameson.

The formal opening will start at 8 o'clock, promptly, at which time Mrs. David Jameson will turn over the hos- pital to the people of New Castle and Lawrence county. She feels that her work is done, that the mission pro- vided for by her late husband has been well started and with the turning over of the keys of the hospital, Mrs. Jameson will withdraw from active participation in the work there. Her address will be responded to by two speakers, one of whom will receive the splendid gift in the name of the city of New Castle and one who will re- ceive it in the name of the county of Lawrence.

The address of the evening will be delivered by Dr. C. J. Williamson, pastor of the Highland United Pres- byterian church. There may be some additional remarks, but the program as stated is the one which will be carried out. Following that, there will be a tour of inspection of the new plant by the guests.

Public Friday-Saturday.

Beginning at 3 o'clock p. m. Friday, August 23, and continuing until 10 o'clock p. m. and on Saturday during the same hours, the general public of New Castle and Lawrence county is cordially invited to inspect the new hospital. The doors will be open all afternoon and evening, and this will probably be the only time that it will be possible to see the hospital from top to bottom.

Small Boy Injured When Hit By Auto

James G. Giangrosso or Jongrass of 1334 Croton avenue, aged about five years, suffered a severe laceration of the head and other minor injuries about 10 o'clock this morning in front of 1332 Croton avenue, when he ran from in front of a bread truck out in front of the machine of D. A. West of Akron, O., and was struck and knocked to the street by the West automobile.

The boy was picked up and rushed to the New Castle hospital to deter- mine the extent of his injuries, which it was feared at first might be more serious than now thought to be. He will be retained at the hospital for a day or two to fully determine the result of his injuries.

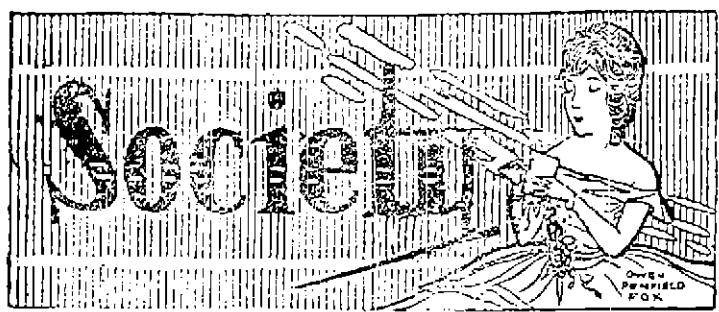

You can tell when you've taken the wrong turn and got off the highway. The scenery doesn't urge you to buy anything.

FORMER MEN'S CLASS TO HOLD CORN ROAST

Friday evening August 23 at 7 o'clock daylight saving time members of the Men's Bible class of the former Fourth Presbyterian church will hold their annual corn roast at a place to be announced later with their wives and sweethearts as special guests. The affair is in honor of Rev. Crapper of Summit Hill, Pa. former pastor of the Fourth Presbyterian church.

John Church is in charge of the committee and that assures all plenty to eat while Sam Johnson is in charge of transportation. Jerry Blucher and M. C. Kennedy old time members of the class will again hold forth while the corn eating contest will be between Rev. Crapper and Sam Johnson with the odds favoring the former.

To Visit Here

Dr. and Mrs. Thad C. Brown are enroute from Ft. Collins, Colorado, to New Castle where they will spend their vacation with their parents, Mr. and Mrs. W. V. Brown of West Pittsburg and Mr. and Mrs. Charles E. Marchand of E. Washington street. Before returning to the west Dr. Brown will attend X-ray clinics in Chicago, and surgical clinics in Rochester, Minn.

In a recent issue of the Fort Collins Express-Courier the lovely garden of the Brown's was highly praised, calling it a Pennsylvania Garden, as many of the plants came from seeds taken from New Castle and West Pittsburg.

BATH WITH SAFETY

One Person Tells Another

Patients from all over the valley recommend Dr. Ford's services and methods. Good news travels fast. The fact that Dr. Ford gives the highest degree of skilled dental services at common sense prices has made thousands of friends and boosters for Dr. Ford. The fact that you pay extravagant prices for dental work does not mean that it is better—because you cannot buy better than the best and remember when better dental work can be done for less Dr. Ford's office will do it.

LIBERTY

YOU send a letter to a friend and when he gets it it is stamped in large letters: "Join the Citizens' Military Training Camp" or something of the kind. If New Orleans, or San Francisco, or Oshkosh is holding an exposition or an old home week, your friend will probably find that the government has stamped his private letter with an invocation to join the boosters for that particular advertising stunt.

The government on occasion goes even further. It decides to advertise some given product and gets out a special advertising stamp: witness the present stamps emblazoned with electric lights.

We do not question the government's right thus to use private correspondence as the vehicle for its own publicity. But there is something irritatingly inconsistent in the fact that this same government has refused to grant private citizens the right to advertise their own non-commercial interests upon their own stationery. By a decision just handed down in New York, private citizens are not permitted to place on their own envelopes, which they are paying the government to transmit through the mails, legends which represent their sincere convictions.

The case on which the decision was handed down was fought by the Civil Liberties Union on behalf of a committee favoring a pardon for Tom Mooney, the California radical who is still incarcerated on a life sentence for murder which most intelligent and observant people believe he never committed. The organization fighting for Mooney issued stickers with such legends as these:

Tom Mooney Frame-up—A Terrible Indictment.

Pardon Tom Mooney—Innocent.

Justice, California Style.

Letters bearing them were immediately stopped by the New York postmaster, and when the Civil Liberties Union sought an injunction against him, before Judge Coleman in the New York federal court, the injunction was refused.

The privilege of putting such stickers in an envelope is a small one. Its loss can hardly be called a direct attack upon our liberties. But what is important and significant is that for a series of years now the government has won nearly every comparable case which has been submitted to the courts. And every decision of this sort means that it will be harder for the citizen to maintain his liberties when a real, rather than a petty, tyranny is brought to the bar.

ALIBIS

ONE of the first things a good sportsman should learn is the preparation of an alibi. Grace, agility, endurance, training, skill, are all very well in actual competition, but at the conclusion of the contest they are useless, whereas an alibi serves not only before a match but also during it and so long afterward as the match is a topic of discussion.

Alibis may be classified as animate and inanimate, while the inanimate alibis include such objects as tennis nets that are too high or too low, warped golf clubs and the phenomena of nature such as heat or cold, breezes or absence of breezes, sunlight and haze, too much rain or too little rain and uneven surfaces.

There may be rare instances in which inanimate alibis are lacking. In such cases recourse may be had to the animate. Almost any bodily ailment will do, such as a blister on the finger, or toe, toothache, eyestrain, a sharp-shooting pain in the back, a weak ankle, joint that is easily thrown out, torn ligament, general lethargy brought on by failure to sleep well the night previous, or cramps resulting from the fact that "you must have eaten something."

Mental alibis, such as the receipt of a depressing telegram, are more difficult to arrange, entail expense, and consequently are less frequent, but they cannot be ignored. In fact, with all the alibis available, little sympathy is due the sportsman who takes the field with one. Should he fail to take the precaution upon the off-chance of winning, he should realize that he does so at his own risk and has only himself to blame.

With a reasonable alibi in hand the best of sportsmen may experience defeat, but he need never know its bitterness. He has the everlasting consolation that if things had not been what they were the result would not be what it is.

SPEEDING SHIPS

SPEED, rather than size, comfort and service, is being emphasized in ship building for the Atlantic passenger traffic. This is due to the new record set by the German Bremen in crossing the Atlantic. Speed is being emphasized as it has not been since the Mauretania was built 22 years ago—the same old Mauretania that was recently forced to lower the mythical blue pennant of the Atlantic.

There will be challengers aplenty for the Bremen's title. England's contender will be the unfinished Oceanic, whose 1,000-foot keel, which Princess Mary laid in Belfast last October, is to be lengthened and her design revised to give her greater speed. The United States lines will build two "super-Leviathans" which are expected to excel both in speed and luxury.

This little private racing regatta of Atlantic liners promises a few thrills and a little excitement for the future.

Quite a little excitement was caused by the Graf Zeppelin when it flew over the uncivilized sections of Asia. It also created quite a little interest when it loomed over New York.

The majority that rules a democracy is the majority that registers and shows up on election day.

Up the Rockies.
Dinosaurs Lived There.
One Kansas Girl.
A Mouse Afloat.

By ARTHUR G. BRISBANE
(Copyright, 1929, King Features

OMAHA, Neb. Aug. 19.
This is written on the Chicago, Burlington and Quincy fast express from Denver through Colorado, Nebraska, Iowa and Illinois to Chicago.

Little things become big things. Seventy-five years ago citizens of Aurora, Ill., built a railroad 12 miles long that began the "C. B. & Q." With 9,000 miles of railroad in 11 states and a cash investment in construction of \$562,000,000.

But let us return to Denver, its story left incomplete the last printing. F. G. Bonifas, boss of the Denver Post, says "We are going to the top of Mount Evans, more than 14,000 feet high, and I'll show you a real mountain country. You could grow Switzerland in it and never find it again."

You want to see Pike's Peak, which means to you the Rocky Mountains, old mining days, gold rush, everything western.

Shocked you learn that Colorado has 100 peaks as high as Pike's Peak and many higher.

Long ago Mr. Pike, toiling over the prairies with his oxen, saw a cloud and noticed that it didn't move. That was Pike's Peak. Mr. Pike's name stuck to it. Pioneers wrote "Pike's Peak or bust" on their wagons. Soon everybody had heard of Pike's Peak.

That helps us to realize what advertising can do. It made the reputation of Pike's Peak while higher peaks were neglected.

A Cadillac car starting at Denver, one mile high, carries you two miles higher up to a spot within two hundred feet of the top of Mt. Evans.

And be it known to the glory of Alfred P. Sloan, Jr. and General Motors that Cadillac gets the whole way on high. It takes steep grades, curves and everything, except when it stops to let a blue-eyed girl from flat Kansas steer her father and mother, grandfather and grandmother and little brothers and sisters, with her right front wheel twelve inches from the edge of a 700-foot drop. You hear her murmur "Can you imagine that, Papa."

Your mountain driver says: "I saw that Kansas automobile license, that's why I stopped. Those girls from flat states are nervous. You are afraid to blow your horn behind them. They might twist the wheel and go over the edge."

He far from nervous, is quite happy with half an inch between his outer wheel and eternity. "There isn't any danger," says he. "If you jammed on your brakes your differential would drag along the ground and you wouldn't go over."

Happy optimism.

All this time you are climbing through Rocky Mountain foothills to the real Rocky Mountains. You can describe the Taj Mahal, or Senator Borah in action, but you can't describe "the Rockies."

First you look up and exclaim. Then you look down and gasp. You look straight ahead and find comfort.

And that kind of landscape reaches back for hundreds of miles toward the West. Your driver says "You can see the Denver Telephone Building from here."

As you go up, Bear creek roars down the gully. On your left enough water power is wasted to run many factories.

"This place was full of dinosaurs once," says your driver. "The big one in the Smithsonian Institute used to live here. See those three things like claws, in the rock there. A dinosaur's foot made that mark."

For 75 miles the mountain road leads always upward, around turns as sharp as a street corner, with the tops of pine trees a thousand feet below.

Presently the trees change. Thick trunks are short, heavy limbs and the trunks themselves are twisted, like fantastic columns, or human bodies in illustrations of Dante's hell. You reach the last struggling line of trees. On the lower side, green, on the side toward the mountain top they are bleached white, bark gone, worn away by wind, hail, driving snow.

A little higher, and the timber runs along the mountainside as straight as a knife edge. At that height immutably fixed by nature, the trees stop. There, in desperate silent courage, they have fought for their lives through successive generations, for thousands of centuries.

Men who pet dears are not animal trainers.

Every year about this time we have to publish our great recipe for summer pickles. These pickles will keep only a few days and must be eaten soon as they are ready which is about twenty-four hours if the pickles are not too large. The small ones can be used in less time.

Take pickles, not matter how disreputable looking or how big or little and wash them and put them in a crock or other earthen vessel. Take enough vinegar diluted to the strength you like best and cover the pickles with it. To a gallon of vinegar take a good big cup of rock salt, dissolving it as much as possible before pouring it in the crock. This is all it takes to make the pickles and they are fine for immediate use.

If you try to keep them any length of time you will have a nice mess to clean up. Rock salt is the wind that is put on sidewalks in the winter and even if it does look dirty it will do very well. We never tried to get clean rock salt.

SEX WAR JINGOISM

They smoke cigarettes and chew the rag. They say worse than "damn" and won't give men their seats in a crowded train. They chauffeur the family car and monopolize our barber shops, bowling alleys, and prize-fight arenas. Now how about a "men's day" at the ball parks? Yes, sir, I'm for "men and children first."

At this time of the year we hear and see in print the term "Corncroast."

We have lived a long time and have seen very few corncroasts and what

few we have seen did not have corn that was any too good. Roasting corn is some job and only very few whitemen know anything about it. The corn you get at corn roasts is cooked in water and that's all there is to it. Not bad often.

Dubbs—I've lived on vegetables for two weeks.

Rubb—That's nothing. I've lived on earth for 12 years.

Work on a new road near Uniontown, Pa., was delayed a lot when the men found four gallons of booze in the bushes along the road. It didn't take much to stop a gang from working along a road. It is seldom one can see any one working while traveling on a railroad. Part of the work on a railroad must be watching the trains go by and wondering where all the folks are going.

"I'm broke," said the customer. "I can't pay you for that meal. You can't get blood from a turnip."

"No," said the proprietor, rolling up his sleeves, "but you ain't no turnip!"

The week of the New Castle Fair is growing nearer every day. If you want to show the farmers of Lawrence county your appreciation for raising the food stuffs for you that they do, make it your business to go to the fair once or twice. It means nothing to the writer of this column any more than it does to any citizen interested in the welfare of all the people of this county.

He who is rich only in money is poor indeed.

Don't forget the old adage about "All work and no play," a good constitution is worth more than a good bank account.

The prohibition commissioner has said that it will take three hundred million dollars a year to enforce prohibition and that congress will not appropriate that amount. That looks as if it was up to congress.

Laugh and the world laughs with you. Loaf and the world laughs at you.

When a man loses his job he doesn't say much about it. When a woman loses her job she becomes indignant and tells everybody about it.

And another thing. No one ever blamed a mother for defending and bawling by her son until the hot seat or the noose snipped his life out and she threw herself on his lifeless body after it had paid for his horrible crimes. Mothers are still all right and very much so!

HOW ABOUT YOU?

A parlor conversationalist recommends this as a test: If you have learned to live in the present moment you have happily and successfully resigned yourself to age. If you live in the future, you are still clinging to the illusions of youth.

Remy de Gourmont, the great modern French critic, by this test, must

therefore have passed the 50th milestone when he wrote the following: "To know that one has but one life, and that it is limited! There is one hour and only one for gathering the grapes from the vine: in the morning the grape is sour; in the evening it is too sweet. Live your hours, live your minutes. Joy is flowers that the rains will tarnish, or that will throw their petals to the wind."

In another place De Gourmont packs this same thought into a single sentence: "Human wisdom is to live as if one were to die, and to gather the present minute as if it were to be eternal."

As our friend stated, the compensation of age is wisdom. There may be others, but none occurs to us just now.

The cornrober and the corn eater sure can do a lot of damage in a very short time this time of the year.

"Now," said the leader of the Brushville band, "we'll play 'The Stars and Stripes Forever.'"

"Gosh!" exclaimed the cornetist. "I just played that!"

Chicago has an average of two bombings a week, and it would be so much easier on the nerves to set aside an annual bombing day for all of it.

One of our former friends says that he wishes he could let his bills stand as long as the relief bill.

If we only knew how to enjoy what we've got, the world wouldn't be such a bad place.

If you have something to say the words to phase your thought will come as naturally as the leaves on a tree.

Still, home folks would charge you as much as resort people do if they had to get their share in two months.

A Youth's Companion then amused a family for a full week (without change of program) the family gathered about in a "homelike living room on one of those long winter evenings" such as they used to have; a center table with a light, a work basket and a dish of apples on it, and someone reading aloud to entertained children till bedtime interrupted the story at its very best part.

THE KANSAS CITY TIMES describes the magazine as "an institution in the old days. Its weekly coming was an event." Referring to the "premium list in a brown cover that took the place of one of the regular issues in October," this paper says: "Who could look without a pang on the alluring picture of the foot lather, the scroll saw, the printing press, the magic lantern, the steam engine?"

The welcome it received was based

on the fact that "by intention, the Companion was something more than a magazine for youthful readers," as the MANCHESTER UNION points out, saying: "It aimed to interest all the members of the households of its subscribers."

Its contributors included many well known writers and their productions covered a wide range of subjects. Its clientele was more than national in extent.

"At a time when New England's commercial efficiency is being much discussed, the success of the Youth's Companion is not without lessons," says the SPRINGFIELD REPUBLICAN, which regards the magazine as "having been 'skillfully conducted.'"

However, as the COLUMBIA RECORD remarks: "Times change and competition always boils up to plague a successful individual or business, and sometimes the more modern opponent wins. This appears to be the case in the passing of this once popular publication," concludes the Record.

Record Crowd For Dedication

Expect Hundreds To Attend Game Farm Dedication On Saturday

If the present weather holds out, the dedication of the Charles G. Jordan game farm at Voant on Saturday, August 24, is going to be an affair to be remembered.

All arrangements are completed for the dedication, according to L. W. McClung, general chairman, and the man who will read the program will be here Thursday evening, prepared to get started on his work.

Many notables in the field of sports are to be here. The game commission is expected, the first commission, leading sportsmen from other counties and of course several thousand from Lawrence county.

Secretary of Agriculture Charles G. Jordan for whom the farm was named will be the guest of honor and if Old Sol just saves a few smiles for the day the village of Harlansburg should see the largest crowd in its history.

Pantages Held for Superior Court

Alexander Pantages, millionaire theatre owner of Los Angeles, has been held in \$25,000 bail for further trial by jury, for his alleged attack on Eunice Pringle, seventeen-year-old dancer. Miss Pringle (above) held fast to her original story during the preliminary police court trial and sufficient corroborative testimony was furnished by other witnesses to convince the presiding magistrate that Pantages must stand trial on two counts.

GIANT DIRIGIBLE IS SAFELY MOORED AT TOKIO, JAPAN

(Continued From Page One)

Graf passed over Tokio at 4:30 p. m. (3:30 a. m. New York time). When the Graf returned to the airport, the crowd had grown to mammoth proportions, and the twenty passengers and crew of forty-one in the dirigible again had the thrill of floating above a cheering, gesticulating sea of humanity. But this time the arrival was even more romantic than any of the Zeppelin's previous arrivals, for on the field beneath was spread out a cosmopolitan crowd of Germans, Americans, English and Japanese, many of the latter in colorful costumes, thrilled as never before by the first sight of the monarch of the air which has devastated the distances which separate the ends of the earth.

Motors Stop As the Zeppelin's motors, for the first time in 102 hours ceased their dull roar and whined down to a stop, the "spider" coils of landing ropes were thrown down from hatchways, and seized by the eager hands of the ground crew.

Slowly the great ship was nosed down to earth, and the "Banzai" of the Japanese, the "Hoos" of the Germans, and the hearty "Hurrahs" of the Americans and English rose to an even higher pitch as the faces of the passengers were spied against the glass of the ship's gondola.

The landing was accomplished without great difficulty, and the Graf housed in the Kasumigaura hangar, especially equipped to shelter the great air liner during her brief stay in Tokio.

By its early arrival here, the Zeppelin completed the second stage of her journey in almost twenty hours less than her commander, Dr. Hugo Eckener had hoped for. Before leaving Friedrichshafen, Dr. Eckener said he hoped to make the trip in 120 hours, but was fully prepared to have to spend 180 hours in the air if headwinds hampered the dirigible's progress.

Tokio En Fele Tokio was enfeite for the occasion of the Graf's arrival, and thousand upon thousand of Japanese from all over the country had flocked to the city for a holiday and to watch the majestic craft soar overhead. The Graf arrived over the capital fifteen minutes after leaving Kasumigaura, and after circling the city while virtually the entire population tumbled into the streets to watch the sight, flew southward to visit Yokohama.

The huge crowd upon the landing field had been waiting since the early hours of the morning for the Zeppelin's arrival. They had been informed that the ship would proceed to Tokio and Yokohama after first circling the airport, and virtually all waited patiently until the air liner returned from its courtesy trip in order to give the passengers and crew a fitting welcome.

In Air 85 Hours When the Zeppelin arrived at Kasumigaura, completing the 6,000 mile journey from Friedrichshafen, Germany, she had been in the air eighty-five hours and fifty minutes, completing the epic flight in record time, approximately twenty hours less being required for the journey than had been counted on.

The Graf Zeppelin has now carried her twenty passengers and crew of forty-one almost half the way around the globe, in the opinion of Dr. Hugo Eckener, commander of the dirigible and master mariner of the air, the most difficult part of the journey has now been completed—the spanning of the barren, uncharted wastes of Siberia.

Because of headwinds and a severe rainstorm, the worst weather the Graf Zeppelin had encountered in all

night and while miles of "uncharted" air expanses were traversed by the air monarch, not the slightest mishap occurred to mar the journey.

Dr. Eckener hopes to be on his way on the long flight across the Pacific to Los Angeles by Thursday. In order to achieve this desire, he and his passengers will have to race through the round of receptions and entertainments arranged for them while in Tokio with a speed comparable to that of his great airship in flight.

Twenty Passengers TOKIO, Aug. 19.—Twenty venturesome air travelers, thrilled by participation in one of the greatest heavier-than-air flights ever made, arrived here today aboard the round-the-world dirigible Graf Zeppelin.

The passenger list included five Americans. They are Commander Charles E. Rosenthal, representing the United States naval air service; Lieut. J. C. Richardson, United States navy; William E. Leeds, New York millionaire; Joachim Rickard of Boston, Mass., and Karl H. Von Wiegand, newspaper correspondent.

All except Leeds have had previous dirigible flight experience. Rosenthal is commander of the United States navy dirigible Los Angeles. Rickard flew with the Zeppelin from Friedrichshafen to Lakehurst prior to the start of the round-the-world flight and Von Wiegand has been aboard the Graf on almost every one of its long distance flights.

seven hundred feet?" says the driver. That's Lost Lake and nobody knows how deep it is. See how black it is in the center. You can catch big trout there, if you know enough to use live mice."

Reader, this is now tale or horror. No live mouse is put on the hook. Proceed:

"The biggest trout won't bother with flies and they're wise. You take a live mouse, tie a string around him, fasten a hook to the string on the mouse's back. The hook doesn't touch the mouse. You put the mouse fastened to your line, afloat on a little piece of wood. The breeze carries him out onto the lake. The mouse won't get off the wood. He's afraid."

"At the right moment you jerk your line gently and the mouse pulled from his raft begins to swim, carrying the hook. The biggest trout, five or six at a time dash at him, one of them swallows him hook and all. The mouse never knows what happened. But the trout knows. That's the way to catch the biggest trout."

Magnificently beautiful is the view from that rocky mountain top. Mount Evans' top is bare and brown, struggling grass, moss and lichens fighting for a place on the granite. Beneath stretch the treeless plains of Kansas, Nebraska, to the right, mountain ranges that seem never to end.

A few feet below Mt. Evans' summit lies Echo Lake. There the City of Denver, 75 miles away, has established a public park and camping house for the people of Denver and the whole country. Things here are arranged for the average man.

Within convenient reach of the city, Denver has purchased four thousand acres and established, forever, a great playground.

Buffalo Bill's grave on the mountain, pansies and geraniums planted on it, its part of Denver's park. Buffalo Bill and his wife will stay there, despite relatives in Cody, named for Buffalo Bill.

Citizens of Denver made the grave of the great scout and his wife 16 feet deep, put over it a mat of galvanized wire 10 inches thick and covered that with concrete.

John Keating, able station master at Denver, says, "You would need a carload of TNT to get Cody out of there."

Returning to Denver you cross a creek where up until recently hundreds of Chinese squatted washing grains of gold from sand, long after white men, not interested in \$5 a day, had ceased panning.

You pass farms where lambs are in great numbers, are fattened on sugar beet residue after the sugar has been squeezed out.

In the evening you visit one of Denver's beautiful parks where an orchestra employed by the city gives concerts nightly. Thousands of citizens gather, listening to the music beside a lake and a fountain electrically illuminated.

You ought to see Denver and Bonito.

SHE THOUGHT:

"A Lifebuoy bath would make you lots more attractive, Ted."

Yet, to be polite,

SHE SAID:

"I must go now. Why don't you have a swim?"

Poor Ted...shunned by girls—until he ended "B. O."

(Body Odor)

ANITA sounded polite. But Ted wondered—was she trying to get rid of him?

Why was it so hard for him to make friends? Why wasn't he invited to places as often as the other boys?

It puzzled him then. But "B.O."—body odor—is no drawback to Ted now. He's popular everywhere since he discovered his fault and the easy way to overcome it.

Hot weather—beware "B. O."

Who can help perspiring in hot summer weather?

No one! It's natural. Healthy. But take care—don't let perspiration make you guilty of "B.O." Remember, we

don't know when we offend. We become insensitive to ever-present odors. But pores give off as much as a quart of odor-causing moisture daily.

Keep safe the easy, delightful way millions enjoy—Lifebuoy. Its marvelous, antiseptic lather purifies. After a Lifebuoy bath you actually feel new pep—a thrilling cleanness that lasts. No "B.O." to offend others.

Complexions, too, stay healthier, smoother with Lifebuoy. It removes germs of sickness. Lifebuoy's pleasant, extra-clean scent, which vanishes as you rinse, tells you it purifies. Adopt Lifebuoy today.

Census Figures May Increase Judges' Salaries

Over 100,000 Population For
Lawrence Would In-
crease Judges' Sal-
aries

Lawrence county is interested in the census this year not alone to see what the total will show but because if the total population runs over 100,000 it means some change in the official life of the county.

Should the census show 100,000 or more, the position of county auditor would be abolished and a county controller would be elected by the people instead. This would abolish the present system, whereby expenditures are audited nearly a year after they have been made, and would have a controller on the job all the time who would have to approve expenditures before they were made. This system has been in vogue in the City of New Castle for many years.

More For Judges
If the census shows more than 100,000, the two judges now on the bench would have their salary increased from \$10,000.00 per year to \$12,000.00 per year. The salary of the district attorney would be increased from \$3,100.00 per year to \$5,000.00 per year, and an assistant district attorney would be provided. The latter feature is taken care of now however, the Buckman Bill passed in the past session of the General Assembly permitting sixth class counties to appoint an assistant where it is thought necessary.

Bank Clerk Has Eluded Arrest

No Trace Reported Of Oakland
Trust Company Employee
Missing With \$40,000

(International News Service)
PITTSBURGH, Aug. 19.—No trace has been reported today of the whereabouts of Wilson B. Smith,

25 clerk in the Oakland Savings and Trust company here who disappeared Thursday with negotiable securities worth \$40,000. Police all over the country have been advised to watch for him and his automobile.

Since Saturday investigators have revealed several facts about his conduct recently. His wife said he had been "playing" the stock market for some time and appeared to have a large amount of cash on his person at various times. When she questioned him he said he had "cleaned up" with his speculation. Detectives also learned that he has been living beyond his means for several months.

Today bank officials were checking his books to see if any trace could be found of other shortages in addition to the \$40,000. He had been an employee of the bank five years and had been held in high esteem by fellow workers and bank officials.

Gasoline Bonding Case Is Postponed Until September 23

Judge Wickersham, Dauphin
County Grants Postpone-
ment To Test Case

(International News Service)
HARRISBURG, Aug. 19.—Argument on the request of the Pennsylvania Gasoline Dealers Association for a preliminary injunction to restrain Charles Johnson, secretary of revenue, from enforcing rules of his department regarding the bonding of retail gasoline dealers was postponed today until September 23.

Judge Frank B. Wickersham, in Dauphin county court, granted the postponement on motion of Victor Braddock, of counsel for the gasoline dealers, by state authorities in making less stringent the provisions of the four-cent gasoline law passed by the last legislature necessitated certain changes and amendments to the original injunction petition.

Braddock informed the court that the attorney general had agreed to the postponement.

Sub-Committee Meets At Hague To Draft Report

Treasury Experts Hope To Draft
Joint Report Showing
Differences.

(International News Service)
THE HAGUE, Aug. 19.—A sub-committee of treasury experts attending The Hague reparations conference met today in an attempt to draft a joint report showing the monetary differences in the divergent standpoints of Great Britain and the four power group—France, Italy, Belgium and Japan.

It was understood that, if the experts are unable to agree, the four powers will propose neutral arbitration, calling in either Owen W. Young or J. P. Morgan.

Young was chairman of the committee of experts that drafted the Young plan in Paris last spring. Morgan was a member of the American delegation.

Arthur Henderson, British foreign secretary; Aristide Briand, French foreign minister; and Gustav Stresemann, German foreign minister, will meet this evening to consider the report of the jurists conditions and methods for military evacuation of the Rhineland.

Sudden Attack

(International News Service)
PITTSBURGH, Aug. 19.—Unable to give any cause for the attack, John Weber, 38, was in a serious condition in a hospital here from two shots fired at him by a pair of unidentified negroes as he was waiting to board a street car this morning.
Behet, a truck driver, was standing at a street intersection near his home when the negroes approached. When they were abreast of him one drew a revolver and fired three shots, one lodging in his shoulder, one in his left arm and the other went wild. No attempt was made to rob him which adds to the mystery of the attack.

PAYS STIFF FINE
AT POLICE COURT

Officer Thomas, about three o'clock Sunday morning, noticed an automobile weaving about the street and stop in front of Sam Lewis' store on Long avenue, and went to investi-

gate. He found J. M. Thomas in charge of the machine, who admitted that his Chrysler coach, Pennsylvania license 660-003, had been stolen time before, but who disclaimed being drunk, and the examining physician failed to find him drunk.

He was fined \$50 by Mayor William H. Gillespie on a charge of disorderly conduct.

Local Scouts Scheduled To
Embark For Return
Sail Tuesday

New Castle's score of Jamboree Boy Scouts should embark for the return voyage to New York on Tuesday morning, according to the schedule made known before the boys departed. They are expected to sail from Havre, France.

Providing things go as per schedule the local party, with its leaders, should reach New Castle some time the latter part of August.

The trip to the international "coming-of-age" gathering at Birkenhead, England, and the side trips to points on the continent have meant real joy for the Lawrence county contingent since it left here, according to letters received.

Sacred Concert
Sunday Evening

Program Presented At Emmanuel
Church; Other Welsh
News

By WILLIAM A. JOHNS
Brython

The services of the Emmanuel Baptist church were held as follows: last Sunday, August 18, a large Sunday school at 9:45 in the morning; superintendent, William C. Jenkins, Delaware avenue. Prayer meeting and song service at 11 o'clock, when Miss Florence Jenkins read the lesson and the following brothers and sisters took part in the prayers: William C. Jenkins, William Phillips, Griffiths Phillips and Benjamin Jones.

At the piano was Miss Hannah Jones of East Reynolds street. They took action to change the night of the mid-week prayer meeting from Wednesday evening to Thursday evening on account of the Welsh sermon to be held at Youngstown Wednesday, Aug. 21. In the evening at eight o'clock a sacred concert was held in the church, when the following program was rendered:

Hymn.
Scripture reading by Mrs. John McNeil.

Lord's Prayer.
Hymn.

Solo by Mrs. Richard T. Morris.
Solo by Mrs. William P. Logan.

Duet by Mrs. R. T. Morris and Mrs. David J. Clement.

Solo by Richard E. Johns, conductor of the singing at the Christian church.

Solo by Mrs. Morgan Jones, accompanied by Mrs. Morgan, accompanist of the evening, Mrs. Maurice Houk.

Other Notes

The New Castle friends have returned from attending the funeral of Mrs. William J. Johns at Pittsburgh, Pa. Mrs. Johns was the wife of Rev. Johns, the former pastor of the Emmanuel Baptist church.

The Star of Wales lodge held a very interesting meeting last Saturday evening, Aug. 17, when the following officers and members were present: Griffiths Phillips, Evan Hopkins, Thomas D. Thomas, Thomas Grey, Henry T. Jones, William A. Johns, William J. Davies and Griffiths Thomas.

Action was taken to postpone the next meeting for one week owing to the fact that many of the members will take the special trip to Buffalo on September 1. Many Welsh people of this city are preparing to go over to Youngstown next Wednesday, Aug. 21, to join with the Welsh people of Youngstown in their annual Welsh reunion. A very nice program has been arranged in singing and speaking, so the Welsh people are looking for a grand old time.

Word has come from Morristown, South Wales, of the death of Deacon Philip Humphreys of the above place. He passed away at his home at Pleasant Terrace, Morristown, this month. William A. Johns, South Mercer street, and the late Deacon Humphreys were on the same board of deacons of the Servin church of Morristown for a number of years. He was a brother-in-law of the late Mrs. Robert George, who used to live on South Mercer street, this city.

Her Husband
Too Beautiful;
Seeks Divorce

NEW YORK, Aug. 19.—Her husband is the most beautiful man she knows, but he is too hard to hold, was the complaint of Mrs. Pearl N. Ascher of Brooklyn when she petitioned Supreme Court Justice Byrne for an absolute divorce from Jules Ascher.

Mrs. Ascher admitted that she found her husband handsome, suave and charmingly mannered, but other women thought so, too. The aggrieved wife pointed out that her husband's manly beauty, though a curse to marital happiness, is an asset to him in business. Ascher is a stock broker.

In her complaint Mrs. Ascher alleged that countless women flocked to her husband's office each day to watch the market and incidentally seek advice from the six-foot Adonis. These attentions, she claimed, had turned his head and wrecked their marriage.

"If I ever marry again," said Mrs. Ascher, "who is herself brunette and attractive," "my husband will be just an ordinary man and he possibly may be just a little bit homely."

Justice Byrne reserved decision.

Bantam Rooster
Mothering Turkeys

WELLINGTON, O., Aug. 19.—"Mike," the bantam rooster on the Robert Hemphill farm, is raising a family of young turkeys.

A mother hen hatched the turkey eggs early in the spring, but after the turkeys were about five weeks old she

discarded them. "Mike" was enraged and he promptly took over the care of the orphans.

The turkeys are now half-grown about three times as large as their now foster-parent, but "Mike" still hovers over them at night with an authoritative air.

Detroit Arrest Ends Long Chase For Man Marrying Young New Castle Girl

After a chase of nearly two months, extradition to her state that she will be released to her father today.

Two days after disappearing from this city, Omer and the girl arrived in Toledo, O., where they secured a marriage license, the girl declaring that she was over 21 years of age and both claiming Detroit as their place of residence. They were married the same day by a justice of the peace at Toledo.

The father kept up his effort to locate them and for a time they were thought to be in New Kensington. In the meantime they sent letters to the father trying to have him desist in his efforts to get them. They were finally located in Detroit, through the efforts of Jacob Elias, a friend of the Bshara family.

Omer was arrested on a charge of being a fugitive and was released on \$500 bail, pending the effort to get extradition papers. Fifteen days are allowed to make good with extradition papers in a fugitive from justice case and the Bshara family through their local attorney, Mr. Shumaker, had to work fast. They succeeded and with the result that Omer is now back here and girl will arrive here with her father in a day or two. The entire proceedings depended entirely on the question of whether or not the girl was 16 years of age and this was proven to the satisfaction of all authorities that she would not be 16 until some time in September.

Two cousins of Omer, one from Vandegrift and one from New Kensington, were arrested some time ago on a charge made before Alderman Hamilton by the father, charging them with assisting Omer in enticing the girl away. They were held for court.

Akron To Try New Traffic Signals

Will Experiment With Automatic Control System Light

AKRON, O., Aug. 19.—With temporary installation at nearly half a dozen intersections, Akron will try out a new traffic light system, the operation of which is based on the flow of traffic.

A decision to experiment with the system follows a recent demonstration of it before city officials. The demonstration was conducted by a miniature set-up of lights and streets. A survey of intersections where it is thought a practical trial of the system could be obtained is soon to be completed on the authorization of Safety Director Robert A. Myers.

Under the new system, the flow of traffic would be uninterrupted in a given direction until traffic appeared going the opposite way. A line of traffic could pass through the intersection for only 30 seconds at a time before being checked by a red light where opposite traffic presents itself, however.

Pads set in the street from 90 to 100 feet away from intersections serve as switches which govern changes of lights or signals to the system's electrical "mind". With the pressure of vehicular traffic approaching the intersection, the switches transmit the signals for changes.

The intersection at S. Main, S. Howard and Bowerly streets is one of the points where the system is to be installed. This intersection is one of the busiest points in the city and one at which no traffic control system ever has been satisfactory.

Evans Tells Of Playgrounds

Youngstown Man Speaks Of Need For Recreation In Cities

FORSEES ANOTHER GOLF COURSE HERE

Emphatically predicting that in two years the City of New Castle will be building its second 18-hole municipal golf course, Lionel Evans, commissioner of parks and playgrounds of Youngstown, pointed out the benefits of good playgrounds, parks and city golf courses, when he spoke at the regular weekly meeting of the New Castle Rotary club.

Guests of the Rotarians for the day were Mayor William H. Gillespie, members of city council, City Solicitor Robert M. White, City Controller Phil Greer and other city authorities.

Mrs. John Noldhardt of New Castle's recreation board and Mrs. S. H. Rhoads, a member of the playgrounds committee for the Federated Women's club, were also in attendance.

Commissioner Evans more than enthused his audience with the manner in which he told of Youngstown's struggle to develop a playground and golf course system. The matter was first broached in 1909 when the mayor was petitioned to name a recreation board. There were no playgrounds or no parks then.

"Today," he said, "there are 14 playgrounds in use constantly and we are constructing three more. The first was built in 1910. There are 34 tennis courts now for Youngstown's boys and girls, and we could use 75."

Mr. Evans told in detail how Mill Creek park, what he termed "one of the most beautiful natural parks east of the Rockies," was brought from obscurity till now there are 12 miles of roadway winding through over a thousand acres of land there.

"In 1923 there were 15,017 persons who used the golf courses of Youngstown whereas 47,000 persons played the courses in 1928," he said in conclusion.

Three Detroit Boys Held In Pittsburgh For Stealing Autos

(International News Service) PITTSBURGH, Aug. 19.—An eastern excursion of three Detroit boys each 15 years old travelling in stolen automobiles ended abruptly today when they were nabbed by police for running through a red light.

At the police station the boys said they were John Shuter, Harvey Linberg and Charles Murphy. And they told of robbing a butter store of cigars, cigarettes and crackers. They broke into the store because they were hungry and without funds they told city detectives.

They admitted stealing a car in Detroit, abandoned it in Akron where they stole two more and on reaching Butler exchanged the second of these for another.

Poles are holding them to check up on their actions.

Fireman Dies In Truck Crash

(International News Service) CHESTER, Pa., Aug. 19.—One fireman was killed and eight others were injured, two possibly fatally, when the Media fire company's apparatus crashed through a guard rail of a bridge, plunging 50 feet to the tracks of the Pennsylvania railroad eight miles northwest of here today.

The accident occurred at the intersection of Mc. Alvena and Middletown roads.

The dead man was Marion Baker, driver of the truck. The injured were taken to the Media hospital.

RUNS AWAY BUT IS CAUGHT BY OFFICER

W. C. Fletcher of 907 North Mercer street, was driving west on Washington street and stopped in front of Candyland early Sunday morning to let a man out. He had just started up, when P. J. Scanlan, 302 Wabash avenue, going in the same direction ran into the rear of his machine, doing considerable damage. Officers McMullen and Ritty heard the crash and rushed to the scene but Scanlan started to run away and Officer McMullen gave chase and caught him. Scanlan was released on \$15 forfeit for his appearance at Sunday morning police court but failed to appear.

Firm Undertone To Stock Market

Market Somewhat Jerky And Irregular During Forenoon Session

By W. S. COUSINS
(International News Service Financial Editor)

NEW YORK, Aug. 19.—Despite the irregularity and jerkiness of the stock market during the forenoon, leading issues this afternoon displayed a firm undertone with some stocks recording substantial advances.

United States Steel, after a quiet opening, moved up sharply to 234 1/2, shortly after noon, a gain of 4 1/2. American Telephone and Telegraph was run up to 299, an advance of 6 points from Saturday's close before encountering profit taking which caused it to drop back to 296 1/4 at 1 p. m.

Auburn Motor was one of the spectacular features of the session. This stock skyrocketed 28 points to 448. Rumors of an imminent "split" up in shares and the forthcoming display of a new Auburn car were factors in this advance.

Bearish professionals made an attempt to start a technical reaction late in the morning on a basis of a firm tone in call money at 7 per cent. However, funds were offered in sufficient quantity to indicate that no tightening of the money rate would be necessary and bullish operations were resumed with fresh vigor around noon. The market had opened irregularly higher, then came profit taking—late in the first hour and during most of the second hour—following which along about noon, a sharp advance in United States Steel caused the market to become more or less buoyant.

Denver Man Meets Death In Fall Off 1,500 Foot Cliff

(International News Service) DENVER, Aug. 19.—C. W. Thiemeyer of Denver, was found dead at the foot of a 1,500 foot cliff on Longs Peak today. He, together with Dr. and Mrs. Arthur Stacker of Boulder, Colo., were stranded on a narrow ledge under Chimney Notch, 700 feet from the top of Longs Peak early yesterday.

A rescue party, consisting of rangers and guides, brought Dr. Stacker and his wife to safety this morning, after they had been forced to spend the night in a drizzling rain and freezing temperatures.

Thiemeyer, it was believed, either slipped or became numb with the cold and fell from the narrow ledge to a bed of huge boulders in the chasm below.

Mrs. Nowling Escapes Injury In Collision Near Columbus, Ohio

Mrs. Floyd Nowling and daughter Eleanor of 415 Epworth street, this city, were among those aboard the Pennsylvania train, which was derailed near Condit, 25 miles north of Columbus, late Sunday, but fortunately were not injured, escaping with a few bruises and a severe shaking up. She is still in a highly nervous condition, however, due to the terrifying experience.

Mrs. Nowling was enroute to Columbus to visit her mother, having left here early yesterday.

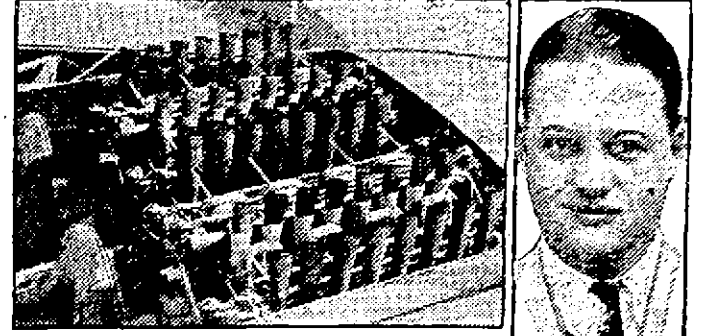

According to the message received early this afternoon by Floyd Nowling, who is assistant pressman at The News, Mrs. Nowling states that the wreck was quite a serious one, in spite of the fact that none was killed outright.

"It sure was a mess," she states in the message. "The second engine jumped the track and eight coaches piled into one another. The coaches were hurled in every direction and the tracks torn and scattered in the fields alongside. They said the train was going almost 80 miles an hour. It was near to Columbus, too. The wreck occurred at 20 minutes to 12 and we were due there at 12:05."

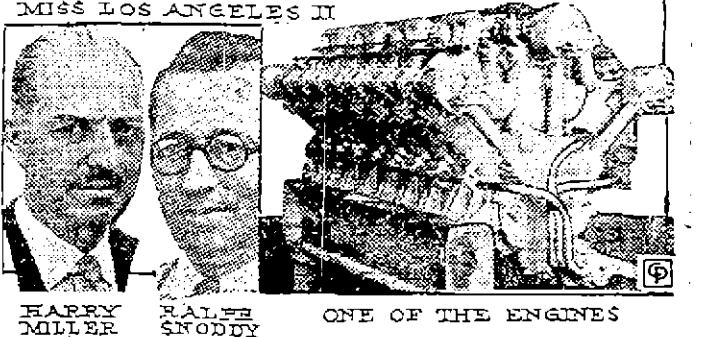

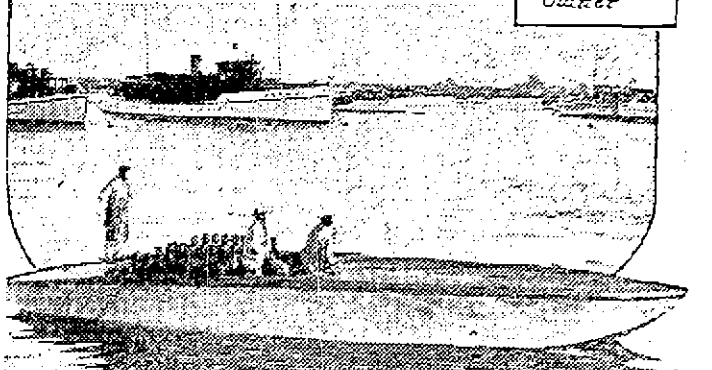

"Our coach was the first one of those which remained on the track. The glass in the door of our coach was shattered. We had to walk about a quarter of a mile through a cornfield to the road and there were victims laying all over the field, where they had been removed from the wrecked cars. I didn't go any nearer than I could help. Poor little Eleanor was scared to death. Some people brought us to Columbus in a machine. I am terribly nervous. I held up until I got here, though. My head is aching terribly, so will try and lie down and keep quiet."

In the early days a camel's hair brush could remove the dirt from the tracks torn and scattered in the fields alongside. They said the train was going almost 80 miles an hour. It was near to Columbus, too. The wreck occurred at 20 minutes to 12 and we were due there at 12:05."

SPEED BOAT SEEKS NEW RECORD

STACKS OF ENGINES IN PLACE IN MISS LOS ANGELES II

Two thousand horsepower and 100 miles an hour will be the achievement of "Miss Los Angeles II," California's bid for world water racing honors, if the dreams of James Talbot, California sportsman, come true. A new world's speed record and the Harmsworth trophy, at Detroit, are the owner's objectives.

Buffalo Paper Tells Of Rescue From Lake Erie Of Former Local Woman

In the Buffalo Courier-Express a graphic account of the rescue of Mrs. Robert Little of Cedar Rapids, Iowa, former New Castle resident, from Lake Erie, when the airplane in which she was riding was forced down, is presented. The Courier-Express says:

A graphic tale of the remarkable heroism displayed by Cyril Caldwell, pilot of the Cleveland-Detroit amphibian which sank in Lake Erie off Pelee Island was unfolded by Mrs. Robert Little, Cedar Rapids, Ia., one of the passengers on the plane, and Captain Roy Burke of the steamer Midland King, on which ship Caldwell and Mrs. King were landed in this city.

Caldwell, handsome, strapping and a powerful swimmer, gave a matter-of-fact account of the wreck of the big amphibian, of the four-mile swim he made with his heavy aviator's equipment and of the subsequent thrilling rescue by the crew of the Midland King.

Pilot's Heroism Lauded.

The tribute of Mrs. Little, wife of a Cedar Rapids minister, given as tears welled in her eyes, was:

"To me he is the greatest hero in the world and we owe our lives to him."

Then came Capt. Burke.

"He is the most courageous man I have ever come across. He told me if we had not sighted him as he was swimming towards us, he would have swam to Canada. That swim was ten miles and Caldwell was wearing his heavy flying clothes, but I have every

cause it to sink. I swam around and told the others to put on life preservers. Mrs. Little donned two. The others had one.

"All had been freed from the cabin when the plane turned over, the bottom part up. In a few minutes the storm lifted and I was able to get my bearings. I flew the route many times and knew where I was. I saw a ship in the distance. Then I saw another."

"I told my companions to float around, while I swam to the boat. I told them if the plane sank to keep just as close to the spot and as close together as they could. Then I started out."

"The waves were high. I couldn't make fast progress with my life preserver and heavy clothes. It seemed ages before the steamer got close enough so that I could make out the deckhands. Then I saw the name. It was the freighter Midland King. I was praying that the plane was still afloat and that my companions had not perished."

"As the ship came closer I shouted and waved my arms whenever a wave tossed me high enough so that I could be seen. I was seen by the first mate when I was about 1,000 yards away."

Mate Dives Overboard.

"Then it was only a matter of minutes before I was hauled on deck."

"I told the captain about the others in the water. With full speed ahead, he started out after them. We saw Mrs. Little about three-quarters of a mile further on. The plane had sunk. All three had been washed away from the spot where it went down and were separated."

"Walter Joslyn, first mate, without a word, dove overboard and went after Mrs. Little. He succeeded in getting her nearly to the ship when his strength gave out. Then the second mate and the wheelman dove in and brought both to a position where they could be pulled aboard."

"Just then we caught sight of the steamer Denmark picking up Lupold (Lupold was brought to Cleveland on the Denmark). We continued the search for my pal, Jack, but couldn't find him. Exactly when he went down, I do not know. I feel the whole affair was my fault, yet I know I did my best to save all. The crew of the Midland King acted splendidly."

Tribute to Crew.

A glowing tribute to the crew was paid by Capt. Burke.

"I have never seen a braver crew than the one I am commanding," he said. "My first mate, Joslyn, was a real hero. There was no hesitation on his part when he jumped in to save Mrs. Little. Samuel Wilkinson, second mate, and Allen Emerson, wheelman, lived up to the traditions of the sea when both unhesitatingly dove overboard after Joslyn's arm had weakened because of the weight of Mrs. Little. It was a display of courage on the part of Caldwell and my men, rarely seen on land, sea or air."

Mrs. Little would not talk of the near-tragedy. She paid her tribute to the heroic pilot, and eulogized the crew of the Midland King and then left.

Wife There to Greet Him.

Caldwell was accorded an unexpected surprise when the steamer dropped up to the Kakota elevator at the foot of Ganson street, when he found his pretty young wife waiting on the dock for him.

When Caldwell stepped from the boat, his wife hugged him, intermittently crying and laughing. Mrs. Little then talked quietly to Mrs. Caldwell for a few seconds. Mrs. Caldwell again ran to her husband and threw her arms around him.

"What a hero you are, Cy!" she cried, gleefully. "She told me if it wasn't for you everyone would have perished."

The graphic story of the rescue is told in less than 100 words in the ship's log. Here it is:

Story Told By Log.

"Time, 7:20. Sighted main floating in water on starboard bow. Put engines full astern. Got way off ship. Lowered boat and picked him up. He was pilot of airplane Miss Detroit. Said there were three others on airplane with him when it crashed, a woman and two men. Swung ship in to south southeast wind. Going slow. Came on lady on portbow. She was too exhausted to catch line. First mate jumped in. Became exhausted himself. Got ladder over ship. Second mate and wheelman went to his

help. We got them aboard. Great Lakes steamer rescued one other man. We cruised around vicinity until 9:20 p. m. We proceeded."

SOME RESPONSIBILITY

A thoughtful correspondent writes in and says: "Here is something to think about. The United States with only six per cent of the world's population and seven per cent of the world's land produces 56 per cent of the world's paper; 26 per cent of its gold; 25 per cent of its wheat; 44 per cent of iron and steel; 40 of lead and 40 of silver; 30 per cent of zinc and 52 of coal; 60 per cent of aluminum; 60 of copper and 60 of cotton; 66 per cent of all the oil; 75 per cent of the corn and 85 out of every 100 automobiles."

Well, that is not only something to think about but it is a heavy responsibility for the United States to carry. What are we, with all this wealth, doing for the world? What is our greatest possible contribution?

KEEPING UP AND AHEAD

The Boston Chamber of Commerce has created a bureau devoted exclusively to aviation. Other cities will do the same. It is the business of a chamber of commerce to see that its city keep up—and keeps ahead.

PATIENCE

Patience often wins what the most impulsive and forceful attack cannot win. Too often those who go at a job with unnatural speed and vigor at the beginning soon fade into failure.

IN POLITICS

The wise and thoughtful man will go into politics or public life with his eyes open and after thoughtful deliberation. He will face the fact, if he knows what it is all about, that he is going to be shot at by all sorts of both just and unjust critics. He is going to be derided by at least 50 per cent and perhaps 75 per cent of those acquaintances whom he fondly thought were friends. He is going to be called dishonest, unjust, weak, a liar, and a demagogue. He is going to do something with good intentions to please somebody and find that he has upset somebody else. Despite all this, no career is greater than a public career. Only, every man who goes in ought to know that the price is high and make up his mind beforehand that he is willing to pay it.

HUMOR

Women, for the most part having little sense of humor, find much more in life to be anxious about, much more to make them unhappy than men do. Women, lacking a sense of humor, have other gifts which men do not have. They have intuition, frequently mistaken, but nevertheless better than no intuition at all.

American Lad Falls From Devonshire Cliff When Footing Gives Way

ILFRACOMBE, DEVONSHIRE, England, Aug. 19.—James E. Berry, 16, American Boy Scout from Stillwater, Okla., was killed Sunday when he fell from a 200-foot high cliff near here.

Berry, an Eagle Scout, and 10 companions in charge of a Scout master arrived Saturday, making a short trip after the breakup of the world Scout jamboree camp at Birkenhead. They attempted to climb the perpendicular cliff from the beach. The surface gave way when they were near the top and Berry plunged down to the beach.

MAN SUFFERED FOR YEARS; NOW IS FEELING FINE

Watchman Tells How Famous Ten Herbs Benefited Stomach And Nerves.

"Since taking Ten Herbs, my general health is better than for many years" was the recent statement of Mr. Harry W. Lockard, 107 Liberty Street, Greensburg, Pa. "During the greater part of the last eight years I

MR. HARRY W. LOCKARD

had been in poor health," continued Mr. Lockard, who is a watchman for the Pennsylvania railroad. "I secured little benefit from the medicines I took. My stomach pained me nearly all the time. It seemed as though a lump had formed in my stomach. I would fill with gas, and had terrible vomiting spells, which left me sick and dizzy. I had no appetite—could hardly stand the sight and smell of food. There were severe pains in my back and sometimes they would extend down into my legs. Nervousness caused me to lose much sleep. I felt tired and miserable all the time."

"Ten Herbs was recommended to me by a friend, who had used it with satisfactory results. After taking the first bottle I began to improve and I continued using your medicine until now I am feeling fine. My appetite is good. I can eat what I please without having any bad after-effects. I am rid of those terrible vomiting spells, and gas and pains are gone from my stomach. The pains have left my back and legs. My sleep is undisturbed and my energy has returned. I am glad to tell others how Ten Herbs has benefited me."

Ten Herbs must do what is claimed for it—benefit the stomach, liver, kidneys and bowels—or so many persons in this locality would not be using and recommending it. Ten Herbs is a tremendously successful new liquid medicine intended for persons of all ages and children, too, who are somewhat past the infancy stage.

Ten Herbs is sold at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, and at all drug and medicine stores throughout this entire section.

Over \$237,000,000 Tax Collected From State By U. S. During Year

By ARTHUR C. WIMER

Special Washington News Correspondent

WASHINGTON, Aug. 19.—Internal revenue collected by the federal government in Pennsylvania during the fiscal year of 1929 totaled \$237,576,656.60, as compared with \$246,742,684.60 collected by the government during the previous year, the Treasury Department report today reveals.

Of the total internal revenue collected in Pennsylvania in the fiscal year of 1929, the amount of \$208,999,544.38 represented income tax and \$28,587,012.22 was miscellaneous tax. Of the income tax, \$113,942,132.45 was revenue collected on incomes of corporations, and the remaining \$95,057,412.93 was individual income tax, according to the Treasury Department report.

The income tax of \$208,999,544.38 collected by the federal government in Pennsylvania in the 1929 fiscal year represented a decrease of four per cent below the \$216,937,912.70 collected as income tax in the Keystone state in 1928 and was considerably lower than the 1927 income tax, which amounted to \$222,975,621.73. The 1929 income tax from the country as a whole was seven per cent greater in amount than the 1928 income revenue.

Of the various forms of miscellaneous taxes collected by the Internal Revenue Department in the 1929 fiscal year ended June 30, Pennsylvania ranked first of the 48 states in the amount of tax on cigars, fourth of the states in the collections from tax on admissions to amusement places, seventh of the states in the tax on playing cards and second of the states in inheritance tax.

Taxes collected by the federal government during the year totaled \$6,926,154.01, and taxes on cigarette manufacturers and cigarette sales amounted to \$6,603,150.17, with manufactured tobacco and snuff production and sales yielding internal revenue amounting to \$621,352.13, the

Regiment To Meet Tuesday

134th Regiment Annual Reunion To Occur At Central Church

PROGRAM WILL START AT 10:30 A. M.

Forty-seventh annual reunion of the 134th Pennsylvania Volunteer Infantry will be held Tuesday in the Central Presbyterian church, known in Civil War times as "White Hall". While the survivors of this famous fighting unit of the Union armies of 1861-1865 are very few in number and only a small portion of the actual survivors will be able to be present, yet it is anticipated that a considerable number of people will be present because of the fact that sons and daughters of members of the organization are honorary members and may attend and participate.

This regiment was made up of four companies from Lawrence county, four companies from Butler county and two companies from Beaver county.

M. S. Quay, United States senator from this state for many years, was commander of the regiment for a time and was then succeeded by Colonel Edward O'Brien of this city.

Among the battles in which the organization participated were Antietam, Fredericksburg, Chancellorsville and others too numerous to mention.

The program announced by W. W. Stevenson, secretary of the regimental association is a business meeting at 10:30 a. m.; dinner served at twelve o'clock noon and the annual campfire at 1:30 p. m. All these events will take place in the Central Presbyterian church.

Mercer county will receive \$15,229.23 as its share of the gasoline tax collected during the first half of 1929, according to the announcement by the state treasurer Edward Martin.

The state will distribute in all \$1,369,597.86.

Shenango Valley is next, Harry Higbee of Stoneboro, agent of the State Bureau of Animals Industry while in Mercer this week made that statement.

The county with the exception of the valley has been cleaned up of its unlicensed dogs. Mr. Higbee with the assistant from Allegheny county will visit the valley next week and wherever an unlicensed dog is found the person harboring it will be arrested, and fined. So if you don't have a license for your dog it would be advisable to obtain one soon.

Filling Gasoline Tank While Using Lantern Brings Lesson To Young Man

(International News Service) NEW KENSINGTON, Pa., Aug. 19.—Recovering in a hospital here today from severe burns, William Gordon, 22, of this place, admits, he has learned a painful lesson and will not again use a lantern for lighting purposes when transferring gasoline from one automobile to another.

When his car ran out of gas on the highway near here Gordon hailed a truck driven by Joseph Lynch, of Braburn, and asked for some fuel, as they were making the transfer into Gordon's machine the lantern they were using ignited the fumes from the gas and Gordon's clothes became a mass of flames. Lynch wrapped a blanket about him, successfully checking the fire, then took him to the hospital.

CENSUS MAY CREATE NEW OFFICE IN COUNTY

Lawrence county may have a new office created following the 1930 census. If the population is shown to exceed 100,000 it is learned today.

Under an existing state law, the office of county controller would automatically be created if the official census shows a population over 100,000.

The county's population was shown to be around 85,000 by the 1920 census, and it is confidently believed that the 100,000 mark will be reached in the ensuing count which will be started shortly.

New Castle and Eliwood City along will show a gain of 15,000 it is predicted.

Machine Strikes Two Boys, Saved From Angry Mob

Pittsburgh Young Man Narrowly Escapes With Life At Hands Of Mob

(International News Service) PITTSBURGH, Aug. 19.—Sobbered after a night in jail here, Jack Vogely, 26, who narrowly escaped drowning in the Allegheny river when a mob seized him after he ran down two boys, faced a hearing on two charges in traffic court today.

His automobile was observed to career wildly, striking Charles Pretnski, 11, and his brother Edward, 9, then come to a stop 100 feet away. Witnesses soon caught him when he abandoned his machine and started to run away. After the boys were treated for minor hurts, the mob turned its attention to Vogely. He was beaten and was carried toward the river where it is probable he would have been drowned if a policeman had not arrived and beat away the crowd with his mace.

Vogely was driven to a police station where a city physician pronounced him drunk. He will face charges of driving while intoxicated, and failing to stop and give assistance after an accident.

LIGONIER, Pa., Aug. 19.—The Water Hardware store and the Murphy 5 and 10-cent store, which were destroyed by fire in Ligonier Friday night, will be rebuilt as soon as possible, it was announced today.

Work on clearing away the debris is already under way. Plans are being designed for the new stores. A. P. Musick, burgess, whose general store was badly damaged by the fire, has started repairs and repairs were also started on the post office building. The total damage caused by the fire was over \$200,000.

can be quickly eased with ACIDINE, the new discovery, because it eliminates excess acid and digests starchy foods. Six out of every ten suffer from gastric digestion failure or as Webster's Dictionary puts it "Dyspeptic Disturbance". ONLY IN ACIDINE CAN YOU FIND AN EXTRAORDINARY ANTI-ACID PLUS THE EXTRAORDINARY STARCH DIGESTANT "LACTAB" UNDER A MONEY BACK GUARANTEE. Your druggist has it, or write Health Laboratories, Inc., Pittsburgh, Pa.
At the first sign of SOURNESS, ACID, BLOATING, INDIGESTION, SILENT, HOARSENESS, HEARTBURN, GAS OR A FEELING OF FULLNESS, ACIDINE at once, immediately your discomforts will be relieved.
ACIDINE prevents starchy foods from getting into your system and acts at the same time neutralizes excess acid. Potatoes, bread, cereals, in fact all starchy foods are liquefied within 30 minutes and pass out of the stomach as liquid dextrin. In addition, ACIDINE contains an anti-acid which remains in the stomach and keeps it sweet for a considerable period of time. ACIDINE is safe, effective, swift, sure, and costs only 10¢ a bottle. **ACIDINE** BACK GUARANTEE. Your druggist has it, or write Health Laboratories, Inc., Pittsburgh, Pa.

Youth Accused In Shooting Gives Up
WAYNESBURG, Pa., Aug. 19.—Police officers searching for John Friel, 20-year-old Madsville, W. Va. youth in connection with the murder of Bert Wells, Madsville miner, at Mt. Morris last Thursday night, were relieved of the burden today when the youth was brought to the county jail by his father, J. T. Friel, a miner residing in Madsville.

The father offered no explanation to jail authorities when he brought his son in for release to the officers, although the Friel youth, according to four persons who stated that they were in the house when the murder was committed, was the "trigger man" in the slaying.

Rain Makes Last Days In
Camp At Birkenhead
Quite Dismal

METZLER'S INVENTION MAKES GREAT HIT

New Castle Scout Develops
Plan To Beat Mud
In Camp

By EARLE K. HERBERT,
(Special News Correspondent)
ARROWE PARK, England, Aug.
18.—Today Arrowse Park is a
swamp, with fifty thousand boys
working their way the best they can
through the mud that has accumu-
lated from ten days and nights of
continuous rain. It was announced
today, that unless dry weather sets
in, all visitors will be prohibited from
the camp.

While many of the camps are flood-
ed by the water, the American camp
still remains high and dry, with a
cheerful, singing and bright group of
boys. All camp activities have tempo-
rally ceased for the day. Boys have
permission to visit neighboring towns
and villages, that the monotony of a
rainy day might be lessened in camp.
All Lawrence county Boy Scouts are
in the finest of health, awaiting the
following days with interest. Starting
tomorrow we tour the interesting
places near here, and on Tuesday
leave for London for a tour of that
city, before leaving for France.

ARROWE PARK, England, Aug. 5.
—Today proved to be one of the big-
gest days at Arrowse Park, due to one
of their national "Bank Holidays,"
which afforded people otherwise oc-
cupied to attend the Jamboree. Dur-
ing the entire forenoon, and through
a downpour of rain, the Scouts pre-
pared to welcome the throng that
would anxiously be waiting to enter
the park at noon.

Noon arrived, and with it thou-
sands of visitors, who waded in mud
shoe top deep, in order that they
might see the work done by Scouts
of other nations, as well as that of
their own.

James Metzler decided to try some-
thing different, in mud line, so he
went up to the store, bought two
boxes, eight inches square, and pre-
pared them to the bottom of his
scout shoes as though they were skis.
He then proceeded to tour the entire
camp, with Eddie Chapman as his
companion. To the amusement of
the spectators, as well as other scouts,
Metzler was the center of attraction.
Everybody clamored for his auto-
graph, a photo or a souvenir. The
newspapermen snapped several pic-
tures of him and his new idea, while
Fox News took a movie. His picture
appeared in a large part of the daily
paper with the following explanation
underneath. "An American Scout,
uses his brains and ingenuity to
overcome weather at Arrowse Park."
All the rest of the afternoon was
spent by many boys, in copying the
idea, and by night you would have
thought that foot-wear of this de-
scription was required as a part of the
official Boy Scout equipment.

A cablegram has been received from
Mr. Winter, addressed to the Law-
rence county contingent. We wish to
thank him for his interest in our
group, as well as his complimentary
remarks concerning the press articles
that are being sent back each even-
ing. Only an experienced camper
knows the difficulty of writing any
material from the cramped conditions
that are always found in any camp,
together with the huge amount of vis-
itors that invade one of this char-
acter.

Mr. Herbert received a wonderful
cablegram from his troop of scouts at
Wampum, and was certainly glad to
hear from them. The valuable
knowledge gained on this journey is
sure to reap huge benefits at a later
period from all scouts and leaders
that have had the opportunity of
participating in the greatest "boys
event" the world has ever witnessed.

Girl's Death Is Being Probed By Police Officials

Girl Found Dying Strapped To
Kitchen Chair At Narberth;
Officials Puzzled

(International News Service)
PHILADELPHIA, Aug. 18.—The
mystery deepened today surrounding
the death of pretty 18-year old Mary
Francis Morgan of Narberth, the
strangest case ever to come before
Montgomery county authorities.

Found dying strapped to a chair
in the kitchen of her home with the
gas jets of the stove open police have
still been unable to determine defi-
nitely whether the girl was murdered
or committed suicide. A note read-
ing: "If I can't have you no one
will" pinned to an ice box nearby
a thumb tack confirmed police in the
theory of murder. Other officials,
however, still believe it was pos-
sible for the girl to take her own life.

Questioning of neighbors and
friends has been futile.
Police admitted today, however,
there is a youth they wish to question
but they have been unable to locate
him. Meanwhile all officials are busy
investigating and saying nothing.

Robert Stinson, Montgomery county
chemist, is expected to make a report
today on his analysis of the girl's
stomach for traces of poison. Dis-
covery of a bottle containing a brown
fluid sitting on a table near the bound
form of the girl led the theory that
she had taken poison, but no cause
for the pretty girl's taking her own
life has been uncovered.

Travelers Have Annual Outing

Two Hundred Attend Gathering
At Lakewood On
Saturday

It was a gay crowd that gathered
at Lakewood Saturday afternoon and
evening to attend the annual picnic
of New Castle council No. 408, United
Commercial Travelers. The attend-
ance was about 200 which included a
number of B. & O. councillors and
their wives from Butler.

The weather was all that could be
expected and everyone present seemed
to enjoy themselves to the utmost.
Pop, ice cream and coffee were as free
as the sunshine. The sports commit-
tee composed of Ray Hall and James
Francis certainly put on a nice list
of sport events.

The winners in the sport field fol-
low:

Bean race, ladies—Mrs. Ed McKib-
ben first, Mrs. Wayne Snyder second.
Bald head race, men—Bert Parker
first, F. Brenneman second.

Peanut race, ladies—Mrs. Smith

Pipe race, men—J. J. Hamilton first,
T. A. McCurdy second.

Balloon race, ladies—Elizabeth Loyer
first, Mrs. Fehl second.

Candle race, girls—Martha Francis
first, Miss Loyer second.

Rolling pin race, ladies—Miss Loyer
first, Mrs. H. G. Fox second.

Towel race, ladies—Mrs. Loyer first,
Elizabeth Loyer second, Mrs. Boulden
third, Mrs. Snyder fourth, Mrs. Mc-
Curdy fifth.

Nail driving contest, ladies—Mrs. E.
Hague first, Mrs. F. Brenneman sec-
ond.

Among other events were horse-
shoes for men, peanut scramble for
boys and girls, penny scramble for
boys and girls.

Supper was served at 6 p. m. and
then the drawing for the grand prizes.
Dancing followed.

Shoots His Girl; Refused Date

MANFIELD, O., Aug. 19.—Enraged
because his girl friend refused him a
date Saturday night, Louis Armen-
trout, 21, shot and critically wounded
Miss Louise Reidenbach, 20, and prob-
ably fatally wounded himself here
Sunday.

The shooting occurred at 6:20 a. m.
a few minutes after Armentrout, in
the company of Manley Donough, 21,
had met the Mansfield girl and her
mother as the pair left a church. The
girl's mother and Donough were in
Armentrout's automobile at the time
of the shooting.

"They had quarreled Saturday night
because Louise refused Louis a date,"
Donough said.

Pioneer Resident Dies At Home

William Koach, Pioneer Resident Of Frisco, Succumbs Sunday

ELLWOOD CITY, Aug. 19.—William Koach, aged 74, passed away on Sunday at his home in Frisco after a protracted illness of about two years. His wife preceded him in death seven years ago and he is survived by the following sons: Blaine, of Wilkesburg, and George, Olmer, Jake, William and Victor, all of this vicinity, and daughters, Mrs. Dora Mills and Mrs. Ethel Hudspeth.

Christian Church Weekly Program

ELLWOOD CITY, Aug. 19.—Activities this week in the First Christian church are announced as follows: Tuesday evening members of the Progressive class will enjoy a monthly meeting and cord roast at the home of Mrs. Jennie Platt of Wiley Hill. They will meet at the church at 7:30. Wednesday evening the Women's Missionary Society will celebrate its second anniversary with a banquet in the church. A special program is being arranged.

Saturday the annual picnic takes place at Mt. Maple on the Beaver Falls road.

Local Scout Abroad Too Busy To Write

ELLWOOD CITY, Aug. 19.—Tommy Wilson, son of Mr. and Mrs. Thomas A. Wilson of Pittsburgh Circle, is too busy having a wonderful time with the Scouts abroad to send many detailed accounts home, outside of stating that he arrived safely and was well.

He did, however, have his picture taken "over there" and proudly sent it home. He is the youngest Scout in the local trio, having just turned 14 before embarking on the trip.

POLLYANNA CLUB
ELLWOOD CITY, Aug. 19.—The Pollyanna club is scheduled to have an all-day meeting Wednesday at the home of Mrs. Kistner of Spruce Hill stop.

School Opens Here On September Four

ELLWOOD CITY, Aug. 19.—Local mothers are beginning to think about equipping their offspring with hose, shoes etc for the opening of school which is September 4.

The lists of additional students expected to enroll this year have not been received from the townships or the truant officer, so an accurate count could not be obtained.

By the last of the week, however it is expected that all information of the fall program in the local schools will be made. The teachers will meet in their respective buildings on the afternoon of September 3 to outline plans for the first semester's work.

Playgrounds Swim Contests To Occur

ELLWOOD CITY, Aug. 19.—The annual swimming meet of the local playgrounds is today's feature event at the Shelby pool.

There will be events for both boys and girls and points scored will count toward the championship banner.

Jud Lubendorfer, playground life guard, will be in charge of the various events.

Avoid burdensome clothing, heavy hats and tight shoes. These retard the circulation and add considerably to the general discomfort of hot weather.

Frankie Ferro Meets Cangey Here Tonight

Lightweights In Superb Condition

Ferro Hopes To Reverse Knockout Cangey Administered In Eighth Round Of Last Grueling Bout; Lucas To Meet Belmont; Jennings Battles Davies; Two Four Round Bouts; Show Starts At Nine P. M.; May Be Strange Officials Here Tonight.

Frankie Ferro, tenacious lightweight of Philadelphia and Paris Cangey, "poison drop" distributor of New Castle clash in a 10 round return bout tonight at the Jolly Bowl and if the battle tonight is akin to that staged June 17, the fans who flock to Bill Jolly's emporium of punch should witness thrills galore and most probably a knockout. It is probable that they will enter the ring even in the affection of the fans.

During the past 10 days the lightweights have been training like trojans and according to their supporters they are in splendid fighting condition. In order to stand the stiff pace they will have to be as both are still puny and are slugs. Ferro's best punch is a short right to the chin and Cangey depends upon a left hook to the jaw.

In the June 17 battle Ferro dropped the "Poison drop" distributor four times but Cangey came back, felled Ferro three times then put him away. The knockout came in the eighth session and when the fans left the bowl they pronounced it one of the best fights they had ever witnessed. Cangey is anxious to get a return bout with Maxie Strub. If he beats Ferro he will probably get it. Should Ferro win he may box Strub.

Defense For Chin Cangey has developed a defense for his jaw, according to Jimmie Dime who has been training him for the fight. Paris has been hiding his chin behind his left shoulder and Dime believes Ferro will find it difficult to get a clean shot. Ferro is tough rugged and game and tonight's bout is expected to be fast, grueling and one in which both hearts will be tested.

After unlimited difficulty an opponent has been secured for Jimmie Belmont of Braddock. He is like Lucas of Cleveland who fought Tiger Joe Randall as Beaver Falls. They are scheduled to box six rounds at 147 pounds in the semi-final.

Jennings To Box Barney Davis, lightweight of Cleveland will meet Johnny Jennings, the East Side Southpaw. Jackie King burst his right hand and is unable to box tonight. Davis has fought eight times. Jennings has milled seven and action is promised.

Vito Mazzeo, Cleveland and Sammy Paris, Pittsburgh, rugged 122 pounders will box in one four round preliminary and Red Hartley, Pittsburgh will take on Jimmy Meyers, Cleveland, at 130 pounds in the opening four round bout.

Five hundred new motion picture house chairs have been installed around the ringside and in a large portion of the reserved section. The bowl presents a better appearance and higher priced seats will be more comfortable.

Chief To Stop Booking The first bout will start at nine p. m. fast time. It is not known who will referee or judge. The bowl promoter requested the boxing commission to try out new officials here in view of the inaccurate decision here last week.

Chief of police Cy Horner today promised that an element which has continually booed everything and everybody will be curbed tonight. He realizes that it is annoying, not necessary and therefore he plans to have the bowl police curb it tonight.

Begin the day right by eating a substantial breakfast. At noon it will be too warm to eat heartily and at night you may be too tired to eat.

"Tony" Ostrosky Joins Benedicts

Former Popular New Castle High School Grid Star

Weds School Girl Sweetheart

BRIDE WAS FORMER BASKETBALL STAR

(By "BUGS")

Anthony E. Ostrosky, better known as "Tony" to his countless number of friends in this city, former New Castle High School football and basketball star, is now a full fledged member of the Benedicts. Miss Jennie Wygonoski, of Neshannock avenue is the bride. The popular local couple took out a license to wed in Cumberland, Maryland. It has been revealed.

The marriage is the culmination of a school days romance, that had its beginning while both were New Castle High students. "Tony" Ostrosky, the groom is perhaps one of the best football players ever turned out at Senior High. He was an end and a good one judging by the number of times that he was selected on the All-W. P. I. A. L. mythical teams. Coach Bridenbaugh only recently paid Ostrosky a fine compliment to the writer, when he said that Ostrosky was one of the best ends that he has ever seen, and "Bridy" has seen a number of football players in his day, both in High School and college.

Excellent Athlete Ostrosky was graduated last June and his departure leaves a big gap in the New Castle High line to fill this year. On the basketball floor, "Tony" was equally as good. He was used as a running guard, and was good enough to play three years on the varsity team. He was a member of the basketball team that advanced to the semi-finals in the Penn State tourney for the State Championship. He was also chosen a number of times by sport scribes on All-W. P. I. A. L. basketball teams.

Miss Jennie Wygonoski was an athlete herself. While in High School Jennie was a basketball player of real ability. She was captain of the varsity team her Senior year. She graduated in June 1928.

Both youngsters have a host of friends in New Castle who extend to them well wishes for a successful journey on the sea of matrimony. The writer, well acquainted with the newlyweds wishes to extend congratulations.

Garland-Howe Win Saturday Golf Event

Interesting Competition Is Held At the Course Of The Field Club

R. M. Garland and W. B. Howe Tied With Dana and Dr. Trainor and Gilliland and Dr. Parlette in the Saturday event at the golf course of the New Castle Field Club. It was a best ball half the combined handicap against par event, and Messrs. Garland and Howe came through with a score of 6 up, as did the other two groups.

Second Division

R. E. Long and O. J. Shira, 9 up; P. H. Bridenbaugh and Dr. Paul Sargent, 7 up; R. M. Jamison and John P. Lockhart, 5 up; Dr. W. P. Felch and Tom Johnson, 5 up; H. C. Heck and T. W. Dickey, 4 up.

Benton-Malone In Mound Duel

Cubs Nose Out Giants 1 To 0 In Great Game At Polo Grounds

ATHLETICS LOSE AT ST. LOUIS

By HENRY McLEMORE International News Service Staff

NEW YORK, Aug. 19.—Those baseball followers who are accustomed to pick up their morning papers, glance at the box scores and immediately set up a wail after reading of the amazing flights of the so-called rabbit ball, are no doubt happily silent this morning.

For seven years and three home runs in several major games yesterday, and several times where booming bats played a much smaller part than pitchers' arms.

Pitchers Battle The most notable example of the latter was here in New York, where Pat Malone and Larry Benton engaged in what may be safely termed a pitchers' battle. The Cubs won, 1 to 0, Malone allowing but five hits and Benton but four. Benton's sacrifice fly scored Oyler in the seventh for the single run of the game.

William Watson Clark pitched himself a mighty neat ball game, limiting the Cards to five safeties as the Robins tripped the St. Louis outfit 3 to 2, in one hour and 30 minutes. Outfielder Frederick kept up his sensational work at bat by getting his 20th homer.

In the only other game scheduled in the National, Boston turned back the Reds, 10 to 9. Hank Gowdy, who has not had an active season in the majors for five years, entered the Boston line-up and got four hits in four times at bat. Rabbit Maranville, another veteran, drove in four of the Braves' runs.

Yanks Beaten Out in Chicago Ted Lyons threw some rather explosive balls toward the Yanks, giving them but six hits as his White Sox teammates won a 3 to 2 victory. In addition to doing such a nice job of flinging, Lyons sent in the winning run in the ninth inning with a resounding double.

The Athletics gained nothing on the second-placers as Sad Sam Gray won a decision from Lefty Grove, though Grove held St. Louis to six hits while Gray was nicked for 10. The score was 4 to 3 with Jimmy Fox hitting two homers, a double and scoring all of the Athletics' runs. It was Gray's 15th win of the year and Grove's third loss.

The Red Sox scored their seventh victory in nine starts by defeating the Tigers, 5 to 4, in 11 innings.

Cleveland pounded Garland Braxton to humble Washington, 8 to 1. Four errors aided in the Indians' scoring.

ITALIANS LEAD LAWRENCE LOOP

Wampum In Second Place; Bessemer Looks Good To Finish Third

The Italian A. A. of the Lawrence County League are leading the loop for the second half with a total of nine victories and one defeat, and look like sure winners to cop the gonfalon in the second and final half of the season.

The Wampum team has won six and lost three, and are in second place. Bessemer stands third with six and six, and the P. R. R. Hillsville, and Elovaks are out of the race.

The standing of the Lawrence County League with games played up until last Friday, was submitted to The News today, by Eddie Connery, secretary of the circuit.

The standing:

	Won	Lost	Pct.
I. A. A.	9	1	.900
Wampum	6	3	.667
Bessemer	6	6	.500
P. R. R.	3	6	.333

Walker-Lomski Fight Tonight In Philadelphia

Both Walker And Lomski Confident Of Victory In Slashing Battle

(International News Service) PHILADELPHIA, Pa., August 19.—Mickey Walker, world's middleweight champion, and Leo Lomski, light-heavyweight, are scheduled to meet tonight in the Municipal Stadium in a ten-round bout.

Both fighters declared themselves fit for battle.

According to the promoters, Max Hoff and Joe Kennedy, upwards of 25,000 persons will witness the fight to establish a "logical contender" for the throne about to be discarded by Tommy Loughran.

Odds have been favoring Lomski but it is expected that the men will enter the ring even money choices.

Loughran, who has fought both of tonight's contestants, is said to favor Lomski.

Lehigh To Play Haney's Tonight

Tonight at the Lehigh field the Lehigh Cement team will battle the Haney Furniture team in a New Castle Mushball league game. The contest will start at 6:30 o'clock.

The Lehigh team is undefeated to date in the third and final round of the circuit and hope to go through the entire schedule unbeaten. The Haney team has yet to break into the victory column. The Furniture team hopes to break the "ice" this evening, they may do it.

Tuesday night at Colonial field the Tin Mill team goes to play the Post-office team and on Wednesday night the Tin Wallopers are scheduled to meet the strong News Office team also at Colonial field.

Energy not To Play Tonight

Manager J. R. Hogue of the Energy team of the City-County League, today made the announcement that his team would not be able to play the West Pittsburg team at the West Pittsburg field, as originally scheduled.

There seems to be a misunderstanding as to the number of games between these two teams, according to Manager Hogue.

All the Energy players are asked to report to the Energy field at 6 o'clock for the game with the Dance-land team.

Wampum Meets Italian Team

Italians And Wampum Both In Threes Of Winning Streaks, Battle Tonight

Tonight, at Centennial field, the Italian A. A. and Wampum teams will battle in a Lawrence County League tilt. The game will start at 6:30 o'clock.

The Italians have won six straight games, and will be out tonight for their seventh consecutive game. The Wampum team has won four in a row, and they will be out to capture that elusive fifth game.

The contest shapes up as one of the hardest fought of the season, and a big crowd is looked for at the local ball orchard.

Manager Alec Black is not sure of his pitcher, but may pick either Shields or Shick. Wampum will likely use Brakovich on the hill.

Both teams are fighting for the flag in the second half of the season, and this fact makes the battle all the more interesting.

Helen Wills After Sixth Title, Open Tournament Carded

Miss Helen Wills "Queen Of Courts" Goes After Sixth Straight Title

Believe California Girl Will Have Real Competition In Women's National Open

By MALCOLM ROY
International News Service Staff Correspondent
NEW YORK, Aug. 19.—Helen Wills, queen of the world's lawn tennis courts sets forth today in quest of her sixth American Lawn Tennis championship when play for the Women's National title begins in the stadium of the West Side club at Forest Hills.

Only one other woman player, Mrs. Molla Bjurstedt Mallory has ever won the American title more often than Helen. It will take victory this year and in two years more before Miss Wills ties the amazing record which was compiled by the Norwegian woman, beginning before the war and continuing right down until she was dethroned by Queen Helen herself. But as it stands today Miss Wills has a record which outshines even those of such luminaries of bygone years as Hazel Hotchkiss Wightman, a four times victor, Mrs. Mary Sutton Bundy, Mrs. Barger Wallach, and Miss Mary K. Browne.

Seemingly the only obstacle in the path of Queen Helen and a clean sweep in the 1929 championships is the person of Betty Nuthall, who forced Miss Wills to the hardest match she has played in upwards of three years when they met in the Wightman cup matches a week ago. Not in that time has Miss Wills lost a match and what is the more remarkable she has not lost even a set in that long period.

Not in two years even was the forced to defeat Miss Nuthall and in the top half, one seeded in the bottom bracket and the other in the bottom tier. Should they move through the early rounds triumphantly they will be brought together in the semifinals. Likewise the bottom bracket should see Helen Jacobs also of Berkeley, California, runner-up at Wimbledon last month and at Forest Hills in the American championships last year, matched against Mrs. Michael Watson the most scientific and careful of the half dozen British women who will fight for the American crown.

The starred match in today's play which will be staged on the stadium courts follow:
2:30—Miss Ethel Burkhardt, San Francisco, vs Miss Marjorie Morrill, Dedham, Mass.
3:00—Miss Helen Jacobs, Berkeley, Calif., vs Miss Penelope Anderson, Richmond, Va.
3:30—Mrs. Phoebe Watson, England, vs Miss Josephine Cruikshank, Santa Ana, Cal.
4:30—Miss Helen Wills, Berkeley, Calif., vs Miss Katherine Lamarche, Seabright, N. J.
5:00—Miss Betty Nuthall, England, vs Miss Cecelia Riegel, Philadelphia.

Williams To Take Speed Plane To Schneider Races

Lieutenant Williams To Take "Flying Bullet" To England For Races

(International News Service)
ANNAPOLIS, Md., Aug. 19.—Lieut. Al Williams will take his Mercury "flying bullet" seaplane to Cowes, England, for the Schneider cup race without a flight test, it became certain today.

Bad weather here made it impossible for Williams to get the plane off the water today and naval authorities concluded it was useless to make further attempts to fly the tiny craft before sending it to England.
It will be crated and put aboard the mine sweeper Sandpiper tonight for New York, where it will be put aboard the liner Majestic, scheduled to sail Friday, Williams may sail Wednesday on the Leviathan in order to break contact with the plane for a few days of rest.

The young Boston girl flashed a well-rounded game in defeating Miss Mary Green, 6-1, 6-3.
William T. Tilden paired with Francis Hunter defeated Gregory Mangin and Berkeley Bell, 6-3, 8-6, 6-4, in the double's final.

Asks Viewers To Assess Damages

In a petition presented to the Lawrence county court today Matt Matich of North Beaver township asks for viewers to be appointed to assess damages done his farm in the construction of Route 17. He avers that the construction of the road rerouted the former road and that as a result damage has been done him. Attorney William McElwaine, Jr., Albert P. Treser and A. Clyde Shoen have been appointed viewers on the job and ordered to report on the second Monday of September.

New Cell Bars Thwart Effort Of Strong Man

Man Placed In Cell Prys Bars Apart; Is Put In New Cell By Police

(International News Service)
PITTSBURGH, Aug. 19.—Frank Gougac, aged 25, mighty man from Cleveland, is safely locked up in the Springdale police station today, despite his ability to bend the heavy iron bars that hold him in.
Yesterday, soon after he was arrested because police suspected he was driving a stolen automobile, the modern Hercules bent apart two bars of his cell and would have escaped if Policeman Harry Lloyd had not been entering the station just as Gougac prepared to make his exit.
Police are not running the risk of having him get away today so they have him in a new cell, the bars of which even Gougac could not move with twice his strength.

Huge Order For Farm Dedication

Ton Of Meat Just One Of Many Items Already Ordered

Something that would more firmly impress upon one the immensity of the Jordan game farm dedication on Saturday, August 24, is the list of food already ordered for the occasion.
But a few of the items that so far have been requested were announced by Alderman O. H. P. Green, member of the dedication committee, today. Alderman Green is laboring hard under the direction of General Chairman L. O. McGough to assure the affair a grand success.
In addition to the ton of meat ordered, 300 loaves of bread, 4,000 buns and 100 pounds of butter are included. Other items are yet to be called for.
Governor John S. Fisher, Secretary of Agriculture for the State Charles C. Jordan and other men prominent in state affairs are expected to be present. A full program has been arranged for the afternoon.

Rubbish Causes Unnecessary Fire

Rubbish Piled Against Building Catches Fire And \$465 Is Asked

Frank A. Dewberry today reported to council that rubbish piled by the department of streets "white wings" against a building in South Norris way had caught fire Saturday and caused damages amounting to \$465. Council admitted that it had been a practice to put rubbish in South Norris way until it could be removed. In this case it had not been removed in time.
According to Dewberry the rubbish in some manner caught fire. Before the department of fire trucks could reach the scene the Sixkufse building in which oil drums, old and new tires and oil were stored the building was a mass of flames.
Council was told that the condition had been reported several times.
The bill for damages was referred to Solicitor White, Councilmen Reeves and Davies.

Sunday Tours Of Cathedral Ended

Sunday tours through The Cathedral, which have been conducted by members of the service division of the New Castle Consistory, were brought to an end with the tours held Sunday afternoon.
Attendance at the tours has dropped off materially during the past few months and it was deemed inadvisable to keep the building open for this purpose. If the demand in the future warrants it they will probably be resumed.

SORDS POINTS

Coming World's Series May End Two Long Careers

By JACK SORDS
Sports Cartoonist Writer for Central Press.

What could be a better ending to a long big league career than to wind up as a member of a pennant winning club?

With the Athletics and the Cubs coming nearer each day to the flag in the American and National leagues respectively, the world's series this fall may have two long service pitchers willing to call it enough with the thrill of the big classic as a finishing touch.

Jack Quinn of the Athletics and Art Nehf of the Cubs are the boys. Although Nehf has not intimated that this will be his last year, like many other veterans before him, he is getting to the time when his thought turns to other lines. Rather than wait for the inevitable trip to the minors, a Cub triumph this season might make him content to ring down the curtain on himself.

Art has been in the National league since 1915, when he was purchased by the Braves from Terre Haute. He stuck with Boston until being sold to the Giants in August, 1919. From New York he went to the Reds in a sale, in May, 1925, and after Cincinnati gave him his unconditional release on August 30, 1927, he signed with the Cubs the following month.

During his entire major league career, Nehf has won upward of 180 games and is one of few pitchers in the game today to win that many.

lines were never better nor so numerous. The grounds are being shaped for the crowd, buildings painted and a general clean-up effort being made for the opening.

Youngstown Man Claims Holdup

Mike McGuire, 177 Ayres street, Youngstown, O., reported to Officer Thomas on the South Side beat early this morning, that he had come to this city on the 12:30 a. m. car from Youngstown and wanted to "set" to

Preston avenue. He claimed that as he got off the car, he met three young men, who said they would walk with him to the place he could get a car. When they reached a large building (now believed to have been the Pennsylvania Engineer Works), McGuire claims two other men joined his companions and they all held him up and relieved him of \$48. Officers McKee and Letera assisted Thomas in the search for the alleged assailants of McGuire but were unable to locate them.

Pennsylvania Leads In Hunting License Revenue

(Special To The News)
WASHINGTON, D. C., Aug. 19.—Increase over the previous season, when 5,987,505 licenses were issued and brought in \$8,156,335, the department states.

New York in the number of licenses issued, the department of agriculture announces.

Pennsylvania issued 517,729 licenses during the season, and the revenue that accrued therefrom amounted to \$1,008,159, whereas New York issued 675,780 licenses but was made richer by only \$699,873.

During the season more than 6,450,000 licenses were issued to sportsmen throughout the United States, including Alaska, and the income total-

MANY HIGHWAYS BEING IMPROVED

Concrete Roads Being Added To Lawrence County's System

More Are Planned For Construction Early Next Year

So much concrete is being poured in Lawrence county this summer that one can hardly get in or out of the county without passing over a detour. While detours are an annoyance, the citizens are willing to bear with such annoyance when a splendid concrete road will result from it.

Two pieces of road have been completed. The Bessner-State line road and the mile towards Hillsville from Edenburg. The contractors are now ready to begin pouring concrete on the New Wilmington-Pulaski road, and work is being started on the Eastbrook-Volant road.

The state is endeavoring to get a contract let for the road near Cascade Park, surveys are working on the road from West Pittsburg over to the Wapum road. The Wilmington road from New Castle to Walms for some reason is being completed slowly, far too slowly according to the county commissioners. They feel that the McDermott company is not making the progress that could be ordinarily expected with the weather as fine as it has been.

Contracts will be let early next spring for the road from Ellwood City to Portersville, and the contracts for the Perry Highway are expected to be let this summer for work in Lawrence county.

Early in the spring it was announced that the legislative delegation representing this county in Harrisburg had secured a comprehensive road program for the coming two years that would be one of the broadest ever brought back. Developments have more than proved the statements made and Lawrence county is one of the banner counties in the state at the present time in the matter of new concrete roads.

Wonderful machine age! Machine owners paying more taxes to provide a dole for men thrown out of work by the machines.

Young Man Jailed In Miner's Death

Officials Believe John Friel, 20, Knows Something About Man's Murder

(International News Service) WAYNESBURG, Pa., Aug. 19.—John Friel, 20, wanted in connection with the mysterious murder of Bert Wells, Madsville, Pa., miner last Thursday was in jail here today. He is believed to have been an occupant of the automobile which brought the body of Wells to a Morgantown, W. Va. hospital early Friday. The occupants of the machine dumped Wells, with four bullet wounds in his head, into the arms of an attendant and fled.

Friel was brought to authorities here by his father, who refused to give any information about his son or about Wells. A search of the Friel home yesterday failed to reveal the young man. Police also are holding two girls and two other young men who are suspected of knowing details of the shooting. They are believed to have been in the automobile also. Bootleg warfare is probably the cause of Wells' death, authorities state.

Bible Class Plans Annual Corn Roast

Plans are now under way by the Men's Bible Class of the Highland U. P. church, for their annual corn roast, which will be held early in September at Lakewood Beach.

President H. S. Christman of the class has named the committee for the event, which will consist of John A. McGrath, chairman, assisted by members of a special committee and the social committee of the class of which Frank R. Cartwright is chairman.

Members of the entire congregation will be guests of the class on this occasion and a big time is looked forward to.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

There must be an extra shift of Guardian Angels on duty for Moron Motorists. That's the only explanation I can think of. Otherwise the funeral directors of this country would be planting people by appointment only.

After seeing the mess of traffic between here and Conneaut Lake Sunday afternoon and evening I'm convinced that what this country needs even more than a good five cent cigar is a flock of motor patrolmen who will be authorized to carry a stuffed club, and wield it occasionally.

At least half a dozen times I saw drivers pecking through the Gates Ajar, at least they could if they had ordinary eyesight, and what they thought was the other fellow's brakes squeaking was probably the sound of celestial harps. At least twice, head-on collisions were avoided because the driver who was on the right side of the road had sense enough not to stand in his right of way. Smart lads that they were they probably remembered the epitaph which has appeared in this column before, but which will bear repetition. It goes like this (ta ta ta, ta ta, etc.).

"Here lies the body of Johnson Jay. Who died defending his right of way; He was right, dead right, as he sped along. But he's just as dead as though he were wrong."

One lad in a light car (they usually have light cars) decided to pass a truck right on the bend outside of Conneaut Lake boro. A car wheeling the other way breezed around the bend and somehow the lad trying to pass squeezed through the truck and the car. How he did it is one for the book. It looked as though a sheet of paper between either two of the three cars would have jammed them all.

Another light job had a rumble seat, with a couple of moon struck youngsters in the rumble, who were in a clinch most of the time. The Divine Afflatus or whatever it was that kept them in a huddle all the time probably carried them out of the mundane order of things, and neither of them will probably ever realize how close they came to riding to Glory in a rumble seat.

It proves one thing, and that is that they aren't all dead yet, but a lot of them are on their way.

While the train of thought or whatever it is, is on speeding things, did you ever ride a speed boat? One of those long, rakish looking crafts, with a 220 horse power motor in them, that plow through water and throw up young geysers. Keen brother, oh very keen. No dust, no traffic, nothing but the lake and a stiff breeze that ruins coiffures of young ladies.

According to Lew McClung, who happens to be the general chairman of the dedication of the Charles G. Jordan Game Farm, there is going to be enough roast or at the affair next Saturday to fill up the largest appetite on the grounds. All of which is welcome news, no doubt.

You really should be there. If you haven't been out to the game farm, the trip is worth it, and the ox roast will take care of that hollow feeling you will build up going out.

BANKERS PLAN TOUR OF FARMS

All-Day Visiting Set Tentatively For September 18

September 18 is the tentative date set for the first annual "farm tour" of the Lawrence County Bankers' association, it was announced today.

The county organization, it was said, plans to call at many farms within the bounds of Lawrence county. Through H. R. McCulloch, county farm agent, arrangements are being made for the reception of the visiting bankers and for brief inspections of at certain farms.

C. P. Cloak, vice president of the First National bank of Ellwood City, is general chairman for the affair, which is planned to continue throughout the day. The tour is an innovation as far as the county bankers are concerned, but it is expected that such visits to rural districts hereafter will be sponsored annually.

Think how poor Solomon felt when a thousand female voices arose in chorus: "Don't forget to water my flowers!"

A Message To Underweight Men And Women

The one supremely good health building tonic that is also the one great weight producer known to modern science the country over is McCoy's Tablets.

They build flesh where flesh is needed—sunken cheeks, neck and chest—and many a man and woman, skinny and scrawny have thanked McCoy's after a few weeks treatment for the decided improvement in looks and figure.

Many times the increase in weight is astonishing—one exceedingly thin woman gained 10 pounds in 22 days. McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

Boys Leave For Week At Camp

Expense For Period Fully Underwritten By Local Rotarians

Sixty under-privileged boys of New Castle will this week enjoy wholesome camp life at the Lawrence county Boy Scout camp under careful supervision of regular camp leaders, thru the efforts of the New Castle Rotary club, it was made known today. More than a half hundred of them left for the camp this morning, to remain until next Saturday noon. The entire expense of the boys' period at camp is underwritten by members of the Rotary organization.

Guardsmen Called In North Carolina To Quell Rioters

(International News Service) ASHEVILLE, N. C., Aug. 19.—Called out to prevent rioting in the Marion, N. C., textile strike, two companies of National Guardsmen today were enroute to the Clinchfield Mills which have been closed for several months on account of a walk-out. The troops were ordered to Marion by Gov. O. Max Gardner of North Carolina, after an appeal was received from authorities at Marion.

Attend Funeral At Indiana, Pa.

Mr. and Mrs. T. B. Graham, Fairmont avenue, have returned from Indiana, Pa., where they attended the funeral of their niece, Mrs. Vesta Swick St. Clair, age 36, who died suddenly August 13, while visiting her mother, Mrs. Elizabeth Graham Swick of Corinth, N. Y. Mrs. St. Clair had been been visiting her mother for the past six weeks, and had intended returning to her home August 14, but became suddenly ill and died August 13. Surviving her is her husband, and one daughter, Adda, her mother Mrs. Elizabeth Graham Swick, one sister Mrs. Rachel Brundage of Corinth, N. Y., and three brothers, Charles Swick of Saratoga Springs, Ben G. Swick, and Clifford Swick of Ellwood City. Mr. and Mrs. R. E. Graham, and Frank Geiger of New Castle and many friends and relatives from Ellwood City attended the funeral services, August 16, from her late home in Indiana, Pa.

Camp East Brook Begins Last Week Of Season Today

Today began the last week of the summer camping season at Camp East Brook, the Y. W. C. A. camp. The camp will close next Saturday. This week there are 35 girls in camp. These last two weeks the camp is not filled to capacity. Previous to these last two weeks camp had been filled to overflowing each week.

Y. W. Camp Girls Have Water Play Day On Saturday

Water Sports Program Saturday Afternoon At Lakewood Beach

Camp East Brook girls had an enjoyable water sports program Saturday afternoon at Lakewood Beach. The program consisted of swimming races, diving and a volleyball game in the water, which was a very entertaining sport. Winners in the various sports were as follows: Single overhand, Peg Fischer, first place; second place, Ray Otto. Back racing, Dot Cain, first place; Peg Fischer, second place. Front dive, Peg Fischer. Obstacle dive, Peg Fischer, first place; Ray Otto, second place. Side stroke, Dot Cain. Soap race, Peg Spaulding, first place; Dot Cain, second place. Stone race, Emily Parker.

ENON VALLEY ASKS FOR DEEDS TO LOTS

Asking that certain lands in the Boro of Enon be deeded to the boro, a petition was presented to the Lawrence county court today in which it is set out that certain lands, originally owned by William McGeorge in 1839, which were made lots in the Boro of Enon, had been sold for taxes in 1922. The boro now asks for deeds for the lands, it having purchased them.
